*Redeeming America* Michael Lienesch, 2014-04-15 This balanced and comprehensive study of Christian conservative thinking focuses on the 1980s when the New Christian Right appeared suddenly as an influential force on the American political scene only to fade from the spotlight toward the end of the decade. In *Redeeming America* Michael Lienesch identifies a cyclical redemptive pattern in the New Christian Right's approach to politics and he argues that the movement is certain to emerge again. Lienesch explores in detail the writings of a wide range of Christian conservatives including Jerry Falwell, Pat Robertson, Phyllis Schlafly and Tim and Beverly LaHaye in order to illuminate the beliefs and ideas on which the movement is based. Depicting the thinking of these writers as a set of concentric circles beginning with the self and moving outward to include the family the economy the polity and the world Lienesch finds shared themes as well as contradictions and tensions. He also uncovers a complex but persistent pattern of thought that inspires periodic attempts to redeem America alternating with more inward looking intervals of personal piety. **Maximizing Manhood** William Small, 2019-01-10 You can't make an omelet without cracking some eggs. You can't fry chicken without plucking a few feathers. And you can't have steak without killing a cow. Maximizing Manhood scrambles some eggs, ruffles feathers and kills the sacred cows that tend to keep men struggling to lead, guide and provide for their families. Men cannot produce REAL change in their lives or create wealth for their families if they don't eliminate some of their OLD thoughts and beliefs. The husband and father is an

Polden,2002-09-15 The dramas of mid life are dramas of abandonment and freedom of highly charged sexual engagements in real time or in fantasy and of sudden encounters with mortality and loss The details are as varied as people s lives are diverse but similar themes reappear with unerring regularity over and over in mid life It is a time when everything from the most fundamental questions of identity and meaning to the daily experience of our own bodies and sexuality is thrown into upheaval making mid life transition for many people the most disturbing period since the onset of adolescence Recognizing that many of us feel sometimes very much to our surprise that we have lost our way at mid life Polden explores

compassionately and sensitively the origins and experiences of mid life crisis Regeneration is a fundamentally optimistic book that argues that while deep seated changes are often painful there are great gains to be made at mid life By helping readers toward improved self awareness and a better understanding of the demands and choices of mid life Regeneration shows how we can begin to lead lives more truly informed by the values that will serve us best in the second halves of our lives
