LIFE, 1954-04-12 *LIFE Magazine* is the treasured photographic magazine that chronicled the 20th Century. It now lives on at LIFE.com, the largest most amazing collection of professional photography on the internet. Users can browse, search, and view photos of today's people and events. They have free access to share print and post images for personal use. *Fun for Kids III* Marion F. Gallivan, 2002. An index to children's craft books published since 1991. Provides a guide to craft instructions alphabetically by project or by type of material used. **Primary Education**, 1905. **Jailhouse Stories** Neil Haugerud, 1999. In the 1950s and 60s Neil Haugerud served as sheriff of Fillmore County in southeastern Minnesota. During this time he and his wife and their four small children made their home in the building that housed the county jail. In *Jailhouse Stories* Haugerud describes what it was like to live above a prison where jailbirds and jailbreaks were part of family life. These are the reminiscences of a real life Andy Griffith character, a man dedicated to maintaining order during both peaceful and turbulent days in rural America. Through the author we meet colorful characters on both sides of the law, for example Doc Nehring, the county coroner who uses dark humor to get through the grim duties of his job, and Irvin Johnson who becomes the sheriff's friend despite his constant drinking and incarceration. Stories of domestic squabbles and infidelity are mixed with those of church functions and child rearing. Throughout the stories runs Haugerud's compassionate outlook on human nature. I came to understand how people make a lot of mistakes, but in my view there are very few bad people, he writes. The town where Haugerud lives is part Mayberry, part Twin Peaks. We get a glimpse into the lives of the town's citizens whose problems range from the ordinary to the offbeat to the downright bizarre. In stories that are by turns heartwarming and sad, humorous and humane, *Jailhouse Stories* tells of the trials, tribulations, and pleasures of rural law enforcement during a bygone era. *Webb City* Harve E. Rawson, 2001-04-04. A psychologist authored this nostalgic look at a small Ozark town, Webb City, Missouri, from the depths of the Great Depression to the end of the Post World War II Era. It is a beautiful tribute and affirmation of so-called middle America and small town values and attempts to demonstrate how small interactions in a child's life make a tremendous difference. The story is unique; the tales are told as seen through the eyes of a perky, bright, rather independent, red-haired boy who finds out for himself the good and bad of people, examines the values people use to give meaning to their lives, explores the deep prejudices and hero worship that hinder their growth, and most importantly, discovers that most people are on your side when the going gets rough. The ugliness of the Great Depression, the chronic unemployment, the hunger, the feelings of worthlessness, the poor health, the absolute despair is the setting for the first part of the story as Ozarkians struggle to survive and retain human dignity in the process. Neighbors help each other simply because they know they may be the next to need help; employment is shared because it is dignifying; self-reliance is given the highest priority, but schooling and learning is never neglected. On the contrary, it is given new importance as the way out of this mess. World War II eventually effects even this remote little town in the Ozarks. The unemployment crisis ends, but the town

sacrifices its best to the Armed Services its minerals are exploited callously without environmental regard and new prejudices emerge with are damaging to all The end of the War brings much greater material prosperity but the old social order is rapidly collapsing Rigid racial segregation becomes untenable families are moving to new opportunities and technology threatens many social institutions which once seemed to serve so well Within this background the author relates those childhood experiences that shaped him as an adult Each family member each neighbor each job each institution each friend all molded his character and all taught him valuable lessons for dealing with both personal and professional life This is a collection of parables It is not an autobiography It is not a book of nostalgia It is not a history of the Depression or World War II It is not a history of Webb City It is a series of tales teaching tales that show how sometimes seemingly small incidents in a child's life can change them forever It also clearly demonstrates that we are always affecting others by what we do especially children The parables cover altruism avarice selflessness sharing sacrifice giving self centeredness devotion loyalty concern patriotism love of learning poverty poor health unemployment racial and religious prejudice insensitivity callousness religious beliefs greed and quite a few other human foibles and strengths This book part of the Tales of the Ozarks series contains material from some events of Webb City over 50 years ago including references to actual places people and events it must be read as a work of reimagined memory which is as we all know a form of fiction Certain historical facts sequencing of events peoples motives and intents and even dialogue may not be accurate A companion CD of these tales and others entitled Tales of the Ozarks will soon be available
