**Mayan Civilization**

Maureen Appleton,2015-12-18 The lyrical and lifelike art works of Mayan culture have given archaeologists and historians the key to ancient Mayan history This eBook describes social religious and artistic life from their beginning until their destruction by the Spanish conquerors in the sixteenth century In more recent years teams of scientists have methodically explored the jungles and plains and have unearthed a wealth of information But unlike Egypt Babylon or Greece where archaeologists have searched widely the land of the Maya is still largely untouched in comparison There are over five thousand ruins in Mexico alone most of which have not been disturbed by the archaeologists spades There are perhaps hundreds more ruins hidden in the forests their fallen stones covering a thousand secrets The news of this little bit of gold was later to spur other greedy Spaniards on to further exploration and to the eventual conquest of three great American civilizations the Incas the Aztecs and the Maya The Mayan people were short The average height of a Mayan man was five feet one inch that of a woman four feet eight inches Their hair was straight and black while the colour of their skin was coppery or brown Mayan men did not shave What little hair they had on their faces they pulled out The men wore their hair in braids wound around the top of their heads with a queue hanging down the back The women wore their hair long and

arranged it in various ways     **Mayan Civilization** Clare Hibbert,2015-04-23 The early Mayans date back to 1800 BC however the golden age of Mayan civilization was around AD 250 They were the most dominant civilization of Mesopotamia covering what is now Guatemala Belize and parts of Mexico The Maya excelled at agriculture pottery hieroglyph writing calendar making and mathematics and left behind an astonishing amount of impressive architecture and symbolic artwork The Maya were most known for the cities they built amassing over 40 Piazzas palaces temples and pyramids have been unearthed and courtyards for playing ball games Farming communities lived outside the cities Deeply religious the Mayans worshipped various gods and the kings were claimed to be related to the gods Mayan Civilization had declined in AD 900 No one is quite sure why but theories involve extensive war fare depleted resources and a natural disaster which may have buried the cities in the lowlands Contains maps paintings artefacts and photographs to show how the Mayans lived Ideally suited for readers age 8 or teachers who are looking for books to support the new curriculum for 2014 If you enjoy reading about the Mayan Civilization then take a look at Ancient Greece Ancient Sumer Benin 900 1897 CE The Shang Dynasty of Ancient China and Early Islamic Civilizations     **The Order of Days** David Stuart,2012-11-27 The world's foremost expert on Maya culture looks at 2012 hysteria and explains the truth about what the Maya meant and what we want to believe Apocalypse 2012 An Investigation into Civilizations End The World Cataclysm in 2012 2012 The return of Quetzalcoatl According to many of these alarmingly titled books the ancient Maya not only had a keen insight into the mystical workings of our planet and the cosmos but they were also able to predict that the world will end in the year 2012 David Stuart the foremost scholar of the Maya and recipient of numerous awards for his work takes a hard look at the frenzy over 2012 and offers a fascination and accurate trip through Mayan culture and belief Stuart shows how the idea that the end of the Mayan calendar which supposedly heralds the end of our own existence says far more about our culture than about the ancient Maya The Order of Days explores how the real intellectual achievement of ancient Maya timekeeping and worldview is far more impressive and remarkable than any of the popular and often outrageous claims about this advanced civilization As someone who has studied the Maya for nearly all of his life and who specializes in reading their ancient texts Stuart sees the 2012 hubbub as the most recent in a long chain of related ideas about Mesoamericans the Maya in particular that depicts them as somehow oddball not of this world or as having some strong mystical link to other realms Because the year 2012 has no prominent role in anything the ancient Maya ever actually wrote Stuart takes a wider look at the Maya concepts of time and their underlying philosophy as we can best understand them The ancient Maya Stuart contends were worthy of study and admiration not because they were strange but because they were altogether human and they developed a compelling vision of time unlike any other civilization before or since     *Lost Science and Technology of the Mayan Civilization* NORAH ROMNEY, The Mayan civilization is one of the most fascinating cultures of all time They flourished in Mesoamerica from around 300 BC to 900 AD and their cities were more complex than any others at the time The Maya built roads developed an

accurate measurement system for distances and built enormous stone temples that served as centers of worship astronomy and astrology They also had a well developed written language which they used to record their history and communicate important messages This post will explore some of their most significant discoveries that have shaped our world today The Mayan culture flourished in the Mesoamerican region from around 300 BC The society was known for its unique and advanced knowledge of architecture astronomy calendar making and mathematics The Mayans were one of the first civilizations in the Americas to develop a written language and they had an extensive knowledge of astronomy which they used to predict eclipses Mayans lived in Mexico and Central America especially on the Yucatan Peninsula where they built sophisticated cities with pyramids and temples made of stone such as Chich n Itz or Uxmal They also built many buildings with flat roofs named patios where people would come together to worship their gods while they watched dances performed by priests dressed in colorful costumes made from jaguar skins The Maya had a well developed written language The Mayan writing system was developed before the invention of the wheel and is one of the oldest in existence It was first used to record history astronomy and astrology but later became a way for people to communicate with each other The Mayans turned out to be better mathematicians than we thought they were Their calendar could easily track lunar cycles solstices and equinoxes without error it also predicted eclipses with great accuracy
