Russian Baptist Mission Theology in Historical and Contemporary Perspective Andrey Kravtsev, 2019-10-31. Since the disintegration of the USSR, many Russian Baptists have actively engaged in evangelism, church planting and acts of social service. This book is a response to the need to critically evaluate the effectiveness of past mission efforts and their undergirding theology. In this detailed study, Dr. Andrey Kravtsev combines historical and qualitative studies to outline the understanding of mission developed by Russian Baptists during the Soviet era when they were almost completely isolated from global missiological developments. First, Kravtsev identifies four key missiological concepts and uses them to analyze the history of mission theology in global evangelical mission movements and the Russian Baptists. He then interviewed thirty leaders from the Russian Union of Evangelical Christian Baptists to find their view of these concepts and their convictions of the need to reconsider traditional missiological views. From his findings, Dr. Kravtsev suggests five themes for facilitating the transition of Russian Baptist mission theology from the late Soviet model of eschatological escapism to a holistic missional evangelicalism. This book places evangelical mission in contemporary Russian socio-political and ideological contexts and provides an important contribution for leading churches to a renewed missionary encounter with culture. Soviet Critical Design is the first book to explore the socialist design practice of artistic projecteering which was developed by the USSR's Senezh Experimental Studio in the 1960s. Tom Cubbin examines the studio as a site for the development of the design discipline in the optimistic environment of the 1960s Soviet Thaw. He also explores how designers adapted to the fast-changing Soviet Union of the 1970s and 1980s, considering their approach to critical projects, highlighting the Soviet state's treatment of citizens' urban heritage and public spaces. Drawing on previously unpublished visual material from private archives and also extensive interviews, this book presents a new history of the late socialist period in the USSR which gives insight into the creative strategies of designers who engaged their practice as a contribution to broader discussions on alternative models for socialist existence. Cubbin shows how artistic projecteering must be read as a utopian activity which privileged the political and ideological over the functional. **Russia and Europe in a Changing International**
