Serving the Servant Danny Goldberg,2019-04-02 NATIONAL BESTSELLER On the twenty fifth anniversary of Kurt Cobain's death comes a new perspective on one of the most compelling icons of our time In early 1991 top music manager Danny Goldberg agreed to take on Nirvana a critically acclaimed new band from the underground music scene in Seattle He had no idea that the band's leader Kurt Cobain would become a pop culture icon with a legacy arguably at the level of that of John Lennon Michael Jackson or Elvis Presley Danny worked with Kurt from 1990 to 1994 the most impactful period of Kurt's life This key time saw the stratospheric success of Nevermind which turned Nirvana into the most successful rock band in the world and made punk and grunge household terms Kurt's meeting and marriage to the brilliant but mercurial Courtney Love and their relationship that became a lightning rod for critics the birth of their daughter Frances Bean and finally Kurt's public struggles with addiction which ended in a devastating suicide that would alter the course of rock history Throughout Danny stood by Kurt's side as manager and close friend Drawing on Goldberg's own memories of Kurt files that previously have not been made public and interviews with among others Kurt's close family friends and former bandmates *Serving the Servant* sheds an entirely new light on these critical years Casting aside the common obsession with the angst and depression that seemingly drove Kurt *Serving the Servant* is an exploration of his brilliance in every aspect of rock and roll his compassion his ambition and the legacy he wrought one that has lasted decades longer than his career did Danny Goldberg explores what it is about Kurt Cobain that still resonates today even with a generation who wasn't alive until after Kurt's death In the process he provides a portrait of an icon unlike any that has come before

data about users preferences creating a personalized experience for each user

How Data Shapes Music Preferences

Data collection goes beyond just choosing songs Spotify monitors listening time playlist engagement repeat tracks and even the times when a user is most likely to listen to a certain style of music This data is then processed to create a detailed profile of each user helping the platform predict which songs are most likely to appeal to them

Practical example Imagine that you are a fan of pop music and frequently listen to the most popular tracks on the charts Spotify by noticing this pattern can recommend similar songs that are starting to gain popularity or even songs by emerging artists in the same style influencing your musical tastes before you have even heard of them
