These challenges include unequal access to education, variable quality of educational resources, teaching and student performance, and increasing cost and concern about the sustainability of education. The Research on Open Educational Resources for Development (ROER4D) project seeks to build on and contribute to the body of research on how OER can help to improve access, enhance quality and reduce the cost of education in the Global South. This volume examines aspects of educator and student adoption of OER and engagement in Open Educational Practices (OEP) in secondary and tertiary education, as well as teacher professional development in 21 countries in South America, Sub-Saharan Africa and South and Southeast Asia. The ROER4D studies and syntheses presented here aim to help inform Open Education advocacy, policy, practice and research in developing countries.

### **Reflections on Postgraduate Supervision and Academic Development in an African Distance Education Environment** Tennyson Mgutshini, Thenjiwe Meyiwa, Amile Mavundla, 2024-03-05

Within postgraduate studies, student non-completion, attrition and failure rates range from 29% to 65%. These unacceptably high failure rates have been attributed to wide-ranging influences. Even so, there is consensus that postgraduate supervision represents a critical enabling vehicle for student success. Reflections on postgraduate supervision and academic development in an African distance education environment offers a collection of scholarly contributions that focus on critical questions related to the practice of postgraduate supervision from the multiple perspectives of higher education institutions, postgraduate students and supervisors. The inclusion of contributions from educators and learners in one manuscript makes this a unique text one that should be the mainstay of any scholar engaged in postgraduate studies. The manuscript aptly makes the case for recognising that postgraduate preparation and supervision are the most critical contributing factors to the success of postgraduate learners and, by inference, they represent a significant panacea to many of Africa's social and economic skills.

### *Strategic Cooperation and Partnerships Between Australia and South Asia: Economic Development, Trade, and Investment Opportunities Post COVID-19* Medhekar, Anita, Saha, Sreeparna, Haq, Farooq, 2022-02-11

The COVID-19 pandemic has forced countries around the globe into lockdown, imposing trade and travel restrictions with devastating economic impacts on all sectors of the economy. In working toward greater economic stability, Australia has been strengthening its trade relations with other countries, which is reflected through its increased strategic relations with India. However, it is now essential to explore how Australia is working to further expand its collaboration with other South Asian countries and find new markets and opportunities for trade, investment, tourism, international education, and business dealings for its resources, services, manufacturing, and technology sectors. Strategic Cooperation and Partnerships Between Australia and South Asia: Economic Development, Trade, and Investment.

**Technological Evolution and Societal Shifts** Michael Fascia, 2024-07-11 Scientific Study from the year 2024 in the subject Education Educational Tests Measurements grade 1 Edinburgh Napier University language English abstract The rapidly evolving technological landscape has had a profound impact on virtually every aspect of our lives and education is no exception In Technological Evolution and Societal Shifts Dr Michael Fascia presents a comprehensive examination of how modern technology can transform educational systems addressing both the potential benefits and the myriad challenges associated with integrating technology into learning environments This work is particularly timely given the recent global shifts prompted by the COVID 19 pandemic The sudden transition to remote learning has underscored the essential role of technology in education and highlighted the pressing need for educational systems to adapt to an increasingly digital world The traditional model of education with its standardized and often rigid approaches is proving inadequate for preparing students for the complexities of the 21st century Dr Fascia s

research provides a detailed exploration of how educational paradigms can evolve to better meet the needs of today's students through the thoughtful integration of technology. Dr. Fascia emphasizes the importance of personalized learning environments made possible by advanced digital tools and adaptive software. These technologies enable educators to tailor learning experiences to individual student needs, thereby enhancing engagement and improving educational outcomes. The book explores various case studies, including Finland's innovative use of artificial intelligence in classrooms and Singapore's Smart Learning Spaces, to illustrate practical applications of technology that have led to significant improvements in student learning. However, the integration of technology in education is not without its challenges. Dr. Fascia addresses the critical issue of the digital divide, which exacerbates existing inequalities by limiting access to digital devices and reliable internet connectivity for underprivileged and rural communities. He advocates for policies that ensure equitable access to technology, comprehensive teacher training, and robust data privacy measures to protect student information. These measures are essential for creating an inclusive educational environment where all students can benefit from technological advancements.

Moreover, this book provides a framework for integrating technology into education, emphasizing the need for a strategic and coordinated approach. **Social Computing** Subhasish Dasgupta, 2010-01-01 With an increasing accessibility to social networking tools, the development of Web 2.0, and the emergence of virtual worlds, social computing crosses cultural boundaries to join people in the digital landscape. Social Computing: Concepts, Methodologies, Tools, and Applications uncovers the growing and expanding phenomenon of human behavior, social constructs, and communication in online environments. This multiple volume publication presents the latest research on social change, evolving networks, media, and interaction with technology to offer audiences a comprehensive view of the impact of social computing on the way cultures think, act, and exchange information.

[Lange's Practical Guide to History Taking, Physical Exam, and Functioning in the Hospital and Clinic](#) Charles Goldberg, 2024-12-13 By approaching clinical medicine in a practical and demystified fashion, this engaging, focused guide helps you master your most important everyday tasks. The clinical exam is a tangible way of truly being with another person while collecting key information. Humans are delightfully quirky, such that the way in which they describe symptoms often requires an open and tuned-in human ear to truly understand and contextualize their stories. Physical connection, providing comfort and healing through touch, can only be delivered when you are next to another living soul. Helping others through medicine is an immensely rewarding activity, and being connected to someone hearing their stories and guiding their care in a hands-on manner is a unique privilege that we should all hold onto tightly. With its pragmatic approach, Lange's History Taking Handbook: Physical Exam and Functioning in the Hospital and Clinic helps make the learning process both fun and rewarding. Core behaviors are described, which have diagnostic utility and prolonged applicability even in a technology-driven world. There are always new techniques to learn and unusual findings to incorporate into your personal libraries of medical experience. However, unless you take the time to build a solid foundation, you will never

have confidence in the accuracy and value of what you can uncover with a sharp mind attentive ear agile fingers and a few simple tools Every section is constructed to answer the question What do I really need to know about this area The material is presented in a concise bulleted fashion that is easy to read and follow The focus is on skills and approaches which should be readily applicable during clinical encounters Exam techniques are described in step by step detail Special maneuvers that are occasionally utilized are also described as well as when they should be implemented Photos and illustrations are incorporated to make the descriptions and techniques easier to understand and apply There are chapters dedicated to every major organ system In addition care of specific patient groups are covered including three chapters dedicated to pediatrics Newborn Toddler Child and Adolescence LGBTQ Health and Geriatrics Every chapter contains Pearls to draw attention to particularly noteworthy elements Findings and their Meanings are provided which highlight common abnormalities that might be identified as well as their clinical significance Tables and charts are used throughout to allow the reader to more easily identify key points and make connections and comparisons Clinical Connection illustrations further highlight the link between historical information exam findings and common disorders Diagnoses at a Glance are provided in tables that emphasize the symptoms findings and pathology associated with common disorders within an organ system Each section has Telehealth Tips highlighting the ways in which this growing modality might be utilized to evaluate specific organ systems and symptoms There is also a chapter dedicated to Telehealth which provides core information that is broadly applicable to typical telehealth visits Checklists at the end of each chapter highlight the core aspects of each organ system exam Detailed descriptions of how to function in clinical settings are provided including Oral Presentations and Documentation e g note writing in the Hos Annual Report on English and American Studies ,2007 Human Computer Interaction Panayiotis Zaphiris,2008-10-01 This reference book penetrates the human computer interaction HCI field a wide variety of comprehensive research papers aimed at expanding the knowledge of HCI Provided by publisher McKinney's Session Laws of New York New York (State),2009 Comprising authentic text of the laws together with other valuable legislative and executive material The Information Needs of Communities Steven Waldman,2011 In 2009 a bipartisan Knight Commission found that while the broadband age is enabling an information and communications renaissance local communities in particular are being unevenly served with critical information about local issues Soon after the Knight Commission delivered its findings The Federal Communications Commission FCC initiated a working group to identify crosscurrents and trends and make recommendations on how the information needs of communities can be met in a broadband world Steven Waldman and the FCC Working Group on the Information Needs of Communities produced this report addressing the rapidly changing media landscape in a broadband age The Information Needs of Communities looks not only at the changing face of media but also at the relevant policy and regulatory situations including the track record of the FCC Finally the report offers policy suggestions to help create the best media system ever seen **Latino Education in**
