*Reader's Choice* E. Margaret Baudoin, Ellen S. Bober, Mark A. Clarke, Barbara K. Dobson, Sandra Silberstein, 1994 The 4th edition of Reader's Choice the world's best known reading skills textbook for ESL/EFL students includes teachers favorite features. Original authentic readings from a variety of sources now including websites. Specific instruction and exercises for developing students' skills in skimming, scanning, reading for thorough comprehension and critical reading. Readings accompanied by a variety of exercises including a composition focus to encourage use of the text in integrated reading writing programs. The popular format of alternating skills units with reading units is back in the 4th edition. Favorite readings like The Lottery, The Sacred Rac and the mysteries are back; some like The Milgram Experiment have been augmented with supplemental material that brings the story/article into the new millennium. Readings in the new edition come from websites, questionnaires, menus, schedules, maps, magazines, newspapers, advertisements, textbooks and poetry and fiction. Topics addressed by the new readings include the globalization of tourism, English as a global language, genetic engineering, aging of the world's population, the world's fight for food and the cross-generational workplace. The answer key is included in the back of the book.

**Reading Engagement for Tweens and Teens** Margaret K. Merga, 2018-12-01 Identifies evidence-backed and easy-to-implement strategies for encouraging young people to read and helps you to position your library as an indispensable resource for supporting reading. While most reading research focuses on young children, this book looks at how to support reading beyond the early years and into adulthood. Reporting on strong peer-reviewed research supported by sound theoretical and methodological approaches, it emphasizes the practical implications of these findings, sharing what this means for you in terms of how you can be a powerful positive reading model and influence in young people's lives. Enriched with the voices of today's young people, the book includes quotes that allow readers to decide how to support reading engagement for tweens and teens based on what would make them read more as expressed in their own words. Engaging and readable, it will be of interest to school and public librarians and can be shared with teachers, parents, and other literacy instructors and advocates.

**Becoming a Reading Teacher**

Jane Spiro,Amos Paran,2023-04-10 This book encourages readers to think about reading not only as an encounter with written language but as a lifelong habit of engagement with ideas We look at reading in four different ways as linguistic process personal experience collective experience and as classroom practice We think about how reading influences a life how it changes over time how we might return at different stages of life to the same reading how we might respond differently to ideas read in an L1 and L2 There are 44 teaching activities all founded on research that explores the nature value and impact of reading as an authentic activity rather than for language or study purposes alone We consider what this means for schools and classrooms and for different kinds of learners The final part of the book provides practical stepping stones for the teacher to become a researcher of their own classes and learners The four parts of the book offer a virtuous join between reading teaching and researching It will be useful for any teacher or reader who wishes to refresh their view of how reading fits in to the development of language and the development of a reading life
