Smith, 2025-05-01 The 1989 Canada US Free Trade Agreement and 1994 North American Free Trade Agreement reinvented  
the concept of North America as a cohesive whole united by free trade But within the bold concept of continental unity lay a  
paradox While art was mobilized to frame the new narrative culture itself was explicitly excluded from the agreements that  
implemented this vision *Trading on Art* brings culture to the fore by examining how artworks exhibitions and museum  
programs from the 1980s to 2010 mediated North American free trade from government supported cultural diplomacy  
initiatives to activist art that confronted impending US hegemony Sarah E K Smith reveals how Canadian artists engaged

with contested and reflected on free trade paying particular attention to the ways in which art was used to forge ties between Canada and Mexico and to circulate ideas about North American identity Her nuanced analysis convincingly makes the case for the centrality of art in conceptualizing continental unity
