**Outward Appearance versus Inward Significance** Aleksandra Hallmann,2025-06-16 Clothes are often considered mundane yet they play a crucial role in people's lives beyond mere bodily protection The meaning of a piece of clothing changes the moment it is worn as it becomes associated with its wearer Because attire can demonstrate affiliation with a particular religious ethnic or political group it serves as an important means of constructing self identity and plays a vital role in social acculturation and assimilation To understand what clothing reveals about the ethnicity beliefs social rank profession gender or age of the wearer one must examine its sociocultural context and the nonverbal language it conveys This volume takes a

Petersen,1996 This collection of essays chronicles the diversity and richness of one broad category of traditional material culture fiber industries or textiles among prehistoric and historic Native Americans in eastern North America Such industries which include basketry fabrics cordage and netting played an important role in the economic social and ceremonial life of indigenous cultures However because of the extreme age of the artifacts their fragile nature and unfavorable preservation conditions knowledge of these industries has long been incomplete resulting in a gap in scholarship that this volume does much to address
