**A Materialist Theory of the Mind** D. M. Armstrong, 2022-10 A landmark of 20th century philosophy of mind it launched the physicalist revolution in approaches to the mind and has been debated and puzzled over ever since its first publication in 1968 Includes a new Foreword by Peter Anstey placing Armstrong's book in helpful philosophical and historical context

**A Materialist Theory of the Mind** D.M. Armstrong, 2002-09-11 Breaking new ground in the debate about the relation of mind and body David Armstrong's classic text first published in 1968 remains the most compelling and comprehensive statement of the view that the mind is material or physical In the preface to this new edition the author reflects on the book's impact and considers it in the light of subsequent developments He also provides a bibliography of all the key writings to have appeared in the materialist debate

**Armstrong's Materialist Theory of Mind** Peter Anstey, David Braddon-Mitchell, 2021-12-15 A Materialist Theory of Mind 1968 by David Armstrong is one of a handful of texts that began the physicalist revolution in the philosophy of mind It is perhaps the most influential book in the field of the second half of the twentieth century In this volume a distinguished international team of philosophers examine what we still owe to Armstrong's theory and how to expand it as well as looking back on how it came about The first four chapters are historical in orientation exploring how the book fits into the history of materialism in the twentieth century The chapters that follow discuss perception belief the supposed explanatory gap between the physical and the mental introspection causation and functionalism

**Armstrong's Materialist Theory of Mind** Peter R. Anstey, David Braddon-Mitchell, 2022 Armstrong's Materialist Theory of Mind is one of a handful of texts that began the physicalist revolution in the philosophy of mind In this collection distinguished philosophers examine what we still owe to it how to expand it as well as looking back on how it came about

**The Materialist Theory of Mind** Louis DeWald Sass, 1953

**The Mystery of Mind** Peter M.K. Chan, 2003 The Mystery of Mind is a systematic and critical introduction to the philosophy of mind At issue is what is known as the mind body problem How does a body support a mind with its brain Pivotal to the book is the author's working out of an adverbial concept of mind that is user friendly to the materialist cause It is upon the strength of this adverbial concept that the author has come to hold that the conceptual gap between the neurobiological and the psych cognitive could in fact be bridged It is also the author's contention that despite shortcomings of other materialist approaches that have been taken in

our time an intelligible case for the truth of materialism could still be made in the form of a biological emergent two aspect scenario i.e. when the adverbial concept of mind he advocates is also brought to bear. All in all what The Mystery of Mind offers is a systematic introduction to one of the living philosophical issues that have engaged the human intellects for more than two thousand years. This is also the central issue that has motivated research in artificial intelligence, cognitive psychology, neuroscience and the philosophy of mind in our time. *The Materialist Theory of Mind*, 1971 *The Nature of Mind, and Other Essays* David Malet Armstrong, 1981 *Materialism and the Mind-body Problem* David M.

Rosenthal, 2000-01-01 Expanded and updated to include a wide range of classic and contemporary works this new edition of David Rosenthal's anthology provides a selection of the most important and influential writings on materialism and the mind-body problem. *Theories of the Mind* Stephen Priest, 1991 Many of the world's leading thinkers have been haunted by the same great philosophical puzzle. What is the exact relationship between the body and the mind? In lucid prose, Priest walks readers through the main schools of philosophical thought from Plato and Descartes to the dualists, double aspect theorists and phenomenologists and offers a compelling new solution. *Functionalism* James Stewart Kelly, 1983 **Theories of the Mind** Stephen Priest, 1991 **David Armstrong's Materialist Theory of Mind** Peter R. Anstey, David

Braddon-Mitchell, 2022 A Materialist Theory of Mind 1968 by David Armstrong is one of a handful of texts that began the physicalist revolution in the philosophy of mind. It is perhaps the most influential book in the field of the second half of the twentieth century. In this volume a distinguished international team of philosophers examine what we still owe to Armstrong's theory and how to expand it as well as looking back on how it came about. **Mindreading and false belief. Theory of Mind in Mary Shelley's "Frankenstein, or the Modern Prometheus"** Eva-Maria Ehrhardt, 2016-09-20 Master's Thesis from the year 2015 in the subject English Literature Works grade 1.0 Johannes Gutenberg University Mainz language English abstract Every reader who has spent some time with an infant has experienced the following scenario at least once: you are playing hide and seek with the child and out of the blue the child covers her eyes with her hands believing to have found the most amazing hiding place. For the child it is clear he or she cannot see the adult, thus the adult cannot see him/her. In fact the child is probably sitting in the middle of the room without any object covering him/her except for the hands and with the adult standing right in front of the child. This example is the perfect introduction to the topic of the present master thesis. The child is not yet able to understand that the adult is capable of seeing, believing or knowing something other than that which the child can. Or in other words: the child does not understand that the adult has another mental state than its own. Thus the child does not have a Theory of Mind yet. This master thesis deals with instances of Theory of Mind such as the reading of minds, prediction of future actions, false and true beliefs in Mary Shelley's famous work *Frankenstein or the Modern Prometheus* 1818. The term Theory of mind, abbreviated as ToM, was introduced in 1978 by psychologists David Premack and Guy Woodruff in their famous paper *Does the Chimpanzee have a Theory of Mind?* ToM denotes the ability of an individual to

have a certain self awareness that is to be aware of one's own mental state one's own beliefs also false beliefs but furthermore the individual has to be able to attribute a mental state not only to themselves but to another individual as well Given these conditions the literature would suggest that this person has a Theory of Mind I will discuss Theory of Mind in more detail in the second chapter Besides Theory of Mind there are also other terms that can be found in the literature such as folk psychology mindreading mentalizing or even social cognition     *The Elements of Mind* Henry Jamyn Brooks, 1902
