Maternal Pasts Feminist Futures Nostalgia Ethics And The Question Of Difference:

Maternal Pasts, Feminist Futures Lynne Huffer, 1998 This book examines the relations among nostalgia gender and foundational philosophies through a critique of the lost mother as a ground for thinking about sexual difference More specifically the author critiques the nostalgic tendencies of feminist theory arguing that an emancipatory system of thought must move beyond a maternally oriented structure Through close readings of works by Maurice Blanchot Luce Irigaray Julia Kristeva and Nicole Brossard the book elucidates the many dimensions of nostalgic paradigms literary psychoanalytic epistemological ontological and sociopolitical This critique ultimately confronts postmodernism and especially the burgeoning field of performative theory as an intellectual paradigm that claims to subvert systems of meaning Analyzing the writings of J L Austin Judith Butler and Irigaray the author argues that despite its antinostalgic structure performative theory provides an inadequate model for understanding the connections among language identity and the social bonds that constitute the ethical and political sphere Asserting through the example of performative theory that a critique is not enough the book examines the possibility of a constructive model that is both non nostalgic and informed by ethical constraints One such model is offered through a reading of the Quebecois writer Nicole Brossard which explores her work in relation to the question of lesbian writing Demystifying nostalgia Brossard not only uncovers and subverts the structures through which a concept of origins is produced but also provides a different visionary way of thinking about the relationship between subjectivity and language Finally the book argues for further feminist work on the relationship between narrative and ethics a field whose future lies in the elaboration of a bridge between the moral commitments of ethical theory and the fractured realities that find their expression in literary forms Julia Kristeva and Feminist Thought Birgit Schippers, 2011-04-15 This

book appraises the relationship between contemporary feminism and Julia Kristeva a major figure in Continental thought It addresses the conflicting range of feminist responses to Kristeva's key ideas and Kristeva's equally conflicting as well as am Gender and Archiving: Past, Present, Future Noortje Willems, Saskia Bultman, Sylvia Holla, 2017 This 37th volume of the Yearbook of Women's History focuses on the meaning and potential of archiving for enhancing gender equality and the position of women worldwide More than just storehouses of knowledge archives offer new ways for understanding the past debating the present and creating the future Focusing on both traditional and non traditional archival practices in various parts of the world the Yearbook of Women's History explores the meaning of archiving for women and women's history Besides investigating the feminist potential of the archive it also examines questions of erasure and forgetting While archives may have emancipatory or democratizing potential practices of discarding equally shape the histories that can be written and the stories that can be told The articles in this volume are alternated with descriptions of collections and institutes and the topics addressed cover a full range of archival theory and practice This volume has been produced by the editorial board of the Yearbook of Women's History in collaboration with Atria institute on gender equality and women's history in Amsterdam

the Netherlands Unarchived Histories Gyanendra Pandey, 2013-12-17 For some time now scholars have recognized the archive less as a neutral repository of documents of the past and rather more as a politically interested representation of it and recognized that the very act of archiving is accompanied by a process of un archiving Michel Foucault pointed to madness as describing one limit of reason history and the archive This book draws attention to another boundary marked not by exile but by the ordinary and everyday yet trivialized or trifling It is the status of being exiled within by prejudices procedures activities and interactions so fundamental as to not even be noticed that marks the unarchived histories investigated in this volume Bringing together contributions covering South Asia North and South America and North Africa this innovative analysis presents novel interpretations of unfamiliar sources and insightful reconsiderations of well known materials that lie at the centre of many current debates on history and the archive Soul, Body, and Gender in Late Antiquity Stanimir Panayotov, Andra Jugănar, Anastasia Theologou, István Perczel, 2023-12-05 Including both traditional and underrepresented accounts and geographies of soul body gender and sexuality in late antique history philosophy and theology this volume offers substantial re readings of these and related concepts through theories of dis embodiment Bringing together gender studies late antique philosophy patristics history of asceticism and history of Indian philosophy this interdisciplinary volume examines the notions of dis embodiment and im materiality in late antique and early Christian culture and thought The book s geographical scope extends beyond the ancient Mediterranean providing comparative perspectives from Late Antiquity in the Near East and South Asia It offers critical interpretations of late antique scholarly objects of inquiry exploring close readings of soul body gender and sexuality in their historical context These fascinating studies engage scholars from different fields and research traditions with one another and reveal both change and continuity in the perception and social role of gender sexuality body and soul in this period Soul Body and Gender in Late Antiquity is a valuable resource for students and scholars of Classics Gender and Sexuality Studies as well as those working on late antique and early Christian history philosophy and theology **On Matricide** Amber Jacobs, 2007 Despite advances in feminism the law of the father remains the dominant model of Western psychological and cultural analysis and the law of the mother continues to exist as an underdeveloped and marginal concept In her radical rereading of the Greek myth Oresteia Amber Jacobs hopes to rectify the occlusion of the mother and reinforce her role as an active agent in the laws that determine and reinforce our cultural organization According to Greek myth Metis Athena s mother was Zeus s first wife Zeus swallowed Metis to prevent her from bearing children who would overthrow him Nevertheless Metis bore Zeus a child Athena who sprang forth fully formed from his head In Aeschylus s Oresteia Athena s motherless status functions as a crucial justification for absolving Orestes of the crime of matricide In his defense of Orestes Zeus argues that the father is more important than the mother using Athena s motherless birth as an example Conducting a close reading of critical works on Aeschylus s text Jacobs reveals that psychoanalytic theorists have unwittingly reproduced the denial of Metis in their own critiques This

repression which can be found in the work of Sigmund Freud and Melanie Klein as well as in the work of more contemporary theorists such as Andr  Green and Luce Irigaray has resulted in both an incomplete analysis of Oresteia and an inability to account for the fantasies and unconscious processes that fall outside the oedipal patricidal paradigm By bringing the story of Athena's mother Metis to the forefront Jacobs challenges the primacy of the Oedipus myth in Western culture and psychoanalysis and introduces a bold new theory of matricide and maternal law She finds that the Metis myth exists in cryptic forms within Aeschylus's text uncovering what she terms the latent content of the Oresteian myth and argues that the occlusion of the law of the mother is proof of the patriarchal structures underlying our contemporary social and psychic realities Jacobs's work not only provides new insight into the Oresteian trilogy but also advances a postpatriarchal model of the symbolic order that has strong ramifications for psychoanalysis feminism and theories of representation as well as for clinical practice and epistemology

Thinking through the Mothers Janet Beizer, 2011-03-15 If questions of subjectivity and identification are at stake in all biographical writing they are particularly trenchant for contemporary women biographers of women Often their efforts to exhume buried lives in hope of finding spiritual foremothers awaken maternal phantoms that must be embraced or confronted Do women writing in fact have any greater access to their own mothers' lives than to the lives of other women whose stories have been swept away like dust in the debris of the past In *Thinking through the Mothers* Janet Beizer surveys modern women's biographies and contemplates alternatives to an approach based in lineage and the form of thought that emphasizes the line the path hierarchy unity resemblance reflection and the aesthetic mimesis that depends on these ideas Through close readings of memoirs and fictions about mothers Beizer explores how biographers of the women who came before rehearse and rewrite relationships to their own mothers biographically as they seek to appropriate the past in a hybrid genre she calls bio autography *Thinking through the Mothers* features the work of George Sand and Colette and spans such varied figures as Gustave Flaubert Julian Barnes Louise Colet Eunice Lipton Vladimir Nabokov Huguette Bouchardeau and Christa Wolf Beizer seeks an alternative to women's salvation biography or resurrection biography that might resist nostalgia be attentive to silence and reinvent the means to represent the lives of precursors without appropriating traditional models of genealogy
