Citizenship Education Divina Frau-Meigs, Brian O'Neill, Alessandro Soriani, Vitor Tomé, Janice Patricia Richardson, Elizabeth Milovidov, 2017. Most young people in Europe today were born and have grown up in the digital era. Education authorities have the duty to ensure that these digital citizens are fully aware of the norms of appropriate behaviour when using constantly evolving technology and participating in digital life. Despite worldwide efforts to address such issues there is a clear need for education authorities to take the lead on digital citizenship education and integrate it into school curricula. In 2016 the Education Department of the Council of Europe began work to develop new policy orientations and strategies to help educators face these new challenges and to empower young people by helping them to acquire the competences they need to participate actively and responsibly in digital society. This volume, the first in a Digital Citizenship Education series, reviews the existing academic and policy literature on digital citizenship education, highlighting definitions, actors and
