**Measuring Poverty** National Research Council, Division of Behavioral and Social Sciences and Education, Commission on Behavioral and Social Sciences and Education, Panel on Poverty and Family Assistance: Concepts, Information Needs, and Measurement Methods, 1995-04-26 Each year's poverty figures are anxiously awaited by policymakers, analysts, and the media. Yet questions are increasing about the 30 year old measure as social and economic conditions change. In *Measuring Poverty* a distinguished panel provides policymakers with an up to date evaluation of Concepts and procedures for deriving the poverty threshold including adjustments for different family circumstances. Definitions of family resources. Procedures for annual updates of poverty measures. The volume explores specific issues underlying the poverty measure, analyzes the likely effects of any changes on poverty rates, and discusses the impact on eligibility for public benefits. In supporting its recommendations the panel provides insightful recognition of the political and social dimensions of this key economic indicator. *Measuring Poverty* will be important to government officials, policy analysts, statisticians, economists, researchers, and others involved in virtually all poverty and social welfare issues. *Measuring Poverty*, 1995. *Experimental Poverty Measures* National Research Council, Division of Behavioral and Social Sciences and Education, Committee on National Statistics, Planning Group for the Workshop to Assess the Current Status of Actions Taken in Response to *Measuring Poverty: A New Approach*, 2004-12-27. The Committee on National Statistics CNSTAT of the National Research Council NRC convened a workshop on June 15-16, 2004 to review federal research on alternative methods for measuring poverty. The workshop had been requested by the U.S. Office of Management and Budget to evaluate progress in moving toward a new measure of poverty as recommended by the 1995 report *Measuring Poverty: A New Approach*. *Experimental Poverty Measures* is the summary of that workshop. This report discusses which components of alternative measures are methodologically sound and which might need further refinement toward the goal of narrowing the number of alternative measures that should be considered.
