Trauma Healing Global Trend:

Health, Healing, and Shalom Bryant L. Myers, Erin Dufault-Hunter, Isaac B. Voss, 2015-11-17 Frontiers and Challenges for Christian Healthcare Missions Ever since Jesus's proclamation in word and deed as the Great Physician his followers in mission have assumed that salvation and health are intertwined. Yet for every age Christians need to examine how they can best announce the gospel message of God's healing in word and deed in their own context. In our era we are often simultaneously grateful for modern medicine and frustrated by its inability to care for the whole person in effective, affordable ways. In this edited volume authors with an interest in health missions from a wide variety of experiences and disciplines examine health and healing through the theological lens of shalom. This word often translated peace names a much more complex understanding of human well being as right relationships with one another with God and with creation. Reading various aspects of healthcare missions through these glasses not only yields much needed correctives to current practice but also exposes the Spirit's invitation to participate in God's ongoing work of tending, caring and healing our broken world.

Integrated

Care for the Traumatized Ilene A. Serlin, Stanley Krippner, Kirwan Rockefeller, 2019-07-12 Integrated Care for the Traumatized puts forth a model for the future of behavioral health focused on health care integration and the importance of the Whole Person Approach (WPA) in guiding the integration. This book fills a void applying the WPA integration to the traumatized that enables the reader to learn from experienced trauma practitioners on how to assess and treat trauma as humanely and compassionately as possible. This approach of expanding the possibilities of behavioral health by centering upon the whole person is an old idea that is emerging as a modern solution to over specialized practices. Among other things this WPA approach completed with spirituality, psychology, medicine, social work, and psychiatry helps traumatized and their families function in the social environment. The book has four sections: Foundations, Interventions for Individuals, Interventions for Communities, and Future of Integrative Care for the Traumatized. Each chapter discusses the importance of working within an integrative and WP approach with descriptions of integrative models, research, evidence, and applications that are already working. These chapters can help students, families, and seasoned professionals to improve upon and expand their practice with the traumatized in both the individual and community contexts.
