Sufrin,1983-02-05 Douglas and Stephen Jones *The EU VAT System and the Internal Market* Rita de La Feria,2009 This thesis focuses upon VAT in the context of the Community's internal market Its central aim is to prove that the current EU VAT system is incompatible with the concept of internal market as set out in the EC Treaty and interpreted by the Court of Justice The study commences with an analysis of the concept of internal market the main objective of which is to establish

the basic legal framework for the proposed thesis As part of this examination it is demonstrated that the EC Treaty creates a temporally unlimited obligation for the Community to approve legislation with the aim of establishing and improving the functioning of the internal market By analysis of existing EU VAT jurisprudence it is argued that obstacles cannot be overcome through incremental developments emerging from the Court of Justice but can only be resolved by fundamental and substantive legislative amendment *Comparative Corporate Governance* Petri Mäntysaari,2005-05-24 An analytical overview of the regulation of shareholder activism in the UK and Germany The book shows how the comparative legal method can be used in the study of the corporate governance systems of different countries It deals with the regulation of the governance of listed companies within a wide framework that recognises the importance of company law securities markets law standards and internal rule making *The Ninth Directive* Adam Hall,1987-04

### **European Economic Law** Alberto

Santa Maria,2019-01-25 Since the last edition of this pre eminent work five years ago the European framework in the international setting has substantially changed Numerous critical developments have highlighted shortcomings in the European structure that seems incapable in its present complexity of resolving the apparently intractable problems it confronts This book s highly respected author is uncompromising either we have the courage to establish profound constitutional reforms aimed at renewing the European Union in the collective imagination or we risk contenting ourselves with merely an economic community with a far from ideal single market where even the four basic freedoms guaranteeing all actors individuals and enterprises are put under discussion This revision follows the successful format of the previous editions As before the author s intensive discussion brilliantly disentangles the complex interrelations among a vast array of economic factors As a general update the new edition takes into account such major developments as the mass immigration phenomenon effects of Brexit on EU laws and policies and the OECD s project on base erosion and profit shifting BEPS Ongoing matters covered include the following issues surrounding the euro s sustainability especially as revealed in ECJ case law lack of power of the ECB and other EU institutions in fixing the euro s exchange rate the potential EU contribution to reform of the IMF s organization and substantive rules ECJ case law on conflicts in the transfer of seat and cross border mergers the role of the European Commission in the regulation of international trade limits to the advantages lawfully acquired by multinational enterprises transfer pricing in intragroup transactions EU supervision of banking groups and international banking cooperation corporate social responsibility and codes of conduct and State aid between competition law and the non discrimination principle Emphasizing the complex legal regime affecting undertakings in Europe today Professor Santa Maria presents a thoroughgoing legal analysis of the prominence of corporate and business enterprises in what many theorists see as the intrinsic internationality of social activity in the current era Previous editions have been applauded for their unremitting emphasis on rules introduced on the basis of multilateral agreements of an unprecedented reach within which both States and undertakings are made to recognize and to deal with one another In the new edition this

perspective daunting in its scope and breadth is maintained and expanded providing a synthesizing and enlightening analysis that will be of immeasurable value to all parties with an interest academic juridical or administrative in this very important area of law
