United States. 61st Congress, 1909-1911. House. [from old catalog],1910 **The Original Gospel of Thomas in**
Translation April D. DeConick,2007-09-01 An enigmatic collection of 114 sayings of Jesus the Gospel of Thomas was
discovered in the sands of Nag Hammadi Egypt in the 1940 s Here April DeConick provides a new English translation of the
entire Gospel of Thomas which includes the original kernel of the Gospel and all the sayings Whilst most other translations
are of the Coptic text with only occasional reference to the Greek fragment variants this translation integrates the Greek and
offers new solutions to complete the lacunae A unique feature of this book is that translations to the parallels of the Gospel
are also included Since its discovery scholars and the public alike have been intrigued to know what the Gospel says and
what light it sheds on the formation of early Christianity In *Recovering the Original Gospel of Thomas* April DeConick argued
that the gospel was a rolling corpus a book of sayings that grew over time beginning as a simple written gospel containing
oracles of the prophet Jesus As the community faced various crises and constituency changes including the delay of the
Eschaton and the need to accommodate Gentiles within the group its traditions were reinterpreted and the sayings in their
gospel updated accommodating the present experiences of the community This volume was originally published in hardback
as volume 287 in the *Journal for the Study of the New Testament Supplement* series and is part of the *Early Christianity in*
