Art, Literature, and the Japanese American Internment Thomas Girst, 2015 This study explores the cultural trajectory of Japanese American internment both during and after World War II It also provides the most exhaustive biographical outline of John Okada to date and refutes the assumption that his novel No No Boy was all but shunned when first published A close reading positions the book within world literature

Assimilation Catherine S. Ramírez, 2020-12-08 For over a hundred years the story of assimilation has animated the nation building project of the United States And still today the dream or demand of a cultural melting pot circulates through academia policy institutions and mainstream media outlets Noting society's many exclusions and erasures scholars in the second half of the twentieth century persuasively argued that only some social groups assimilate Others they pointed out are subject to racialization In this bold discipline traversing cultural history Catherine Ram rez develops an entirely different account of assimilation Weaving together the legacies of US settler colonialism slavery and border control Ram rez challenges the assumption that racialization and assimilation are separate and incompatible processes In fascinating chapters with subjects that range from nineteenth century boarding schools to the contemporary artwork of undocumented

immigrants this book decouples immigration and assimilation and probes the gap between assimilation and citizenship It shows that assimilation is not just a process of absorption and becoming more alike Rather assimilation is a process of racialization and subordination and of power and inequality

Race & Resistance Viet Thanh Nguyen,2002 Viet Nguyen argues that Asian American intellectuals need to examine their own assumptions about race culture and politics and makes his case through the example of literature
