Modeling North American Economic Integration:

Modeling North American Economic Integration Timothy J. Kehoe, 2012-12-06 Modeling North American Economic Integration presents descriptions of the models and the central results obtained by four teams of economic modelers who analyze the impact of the North American Free Trade Agreement NAFTA on the economies of Canada Mexico and the USA Preliminary versions of these four modeling efforts were presented at a conference with the same title as the book held in March 1991 at the Federal Reserve Bank of Minneapolis and sponsored by El Colegio de Mexico and the Institute for Empirical Macroeconomics The book also includes a Foreword by Jaime Serra Puche the former Secretary of Trade and Industrial Development in Mexico and that country's chief negotiator of NAFTA plus two essays by the editors The first provides an overview and discussion of the results obtained by the modeling groups and the second provides a critical survey of the sort of applied general equilibrium model employed by these groups A final chapter discusses the results of the models in relation to the 1994-95 financial crisis in Mexico

Frontiers in Applied General Equilibrium Modeling Timothy J. Kehoe, T. N. Srinivasan, John Whalley, 2005-01-17 This 2005 volume brings together twelve papers by many of the most prominent applied general equilibrium modelers honoring Herbert Scarf the father of equilibrium computation in economics It deals with developments in applied general equilibrium a field which has broadened greatly since the 1980s The contributors discuss some traditional as well as some modern topics in the field including non convexities in economy wide models tax policy developmental modeling and energy modeling The book also covers a range of distinct approaches conceptual issues and computational algorithms such as calibration and areas of application such as macroeconomics of real business cycles and finance An introductory chapter written by the editors maps out issues and scenarios for the future evolution of applied general equilibrium

Trade, Networks and Hierarchies Geoffrey J.D. Hewings, Michael Sonis, David Boyce, 2013-04-18 In 1989 after several years of discussion and negotiation the Regional Economics Applications Laboratory REAL was formed This unique relationship between the Federal Reserve Bank of Chicago and the University of Illinois at Urbana Champaign has been a significant source of intellectual inspiration for many students visiting colleagues and members of the participating institutions for the past decade The idea for REAL was hatched by Philip Israilevich and Geoffrey Hewings in typical Chicago style in the back room of a local bar In early December 1997 their collaboration came to an untimely end when Philip died after a three year battle with cancer The challenge of moving across a spectrum from theory to model development to implementation and interpretation provided the underlying motivation for REAL's formation together with an equally important component namely the translation of many of these efforts into a form that could be understood and implemented by policy makers For Philip REAL and the Regional Science Association International provided the forums for his intellectual endeavors although he also contributed many papers in banking In recognition of his contributions and to provide a sense of the current research in the fields in which he published many of the authors of these

chapters assembled in Chicago in November 1998 to participate in a small seminar in his honor Several others who were not able to come nevertheless contributed chapters to this volume Subsequently all of the papers have been revised and updated
