Gravity is used as a gauge for dowsing the edges middle grade angle of depositing with depth buried. The involved physics of each of the ninety two natural elements radiating out electromagnetic microwave band frequency from single atoms that combine with other atoms of the same element for producing one elemental magnetic flux line which combine with all the other same element's elemental magnetic flux lines for building enough static electrical energy for the human body produced static electricity to energize the dowsing rod's attached one tenth troy ounce pure element that is dowsed for.
