## Modern German Sociology:

*Modern German Sociology* Volker Meja, Dieter Misgeld, Nico Stehr, 2021-09-30 Originally published in 1987 Modern German Sociology is a collection of essays containing sociological work published in German since World War II Included are sections from such outstanding figures as Theodor Adorno Alexander Mitscherlich Jürgen Habermas Niklas Luhmann and Ralf Dahrendorf The editors have arranged the essays into five sections that express their view of the chief aspects of modern German sociology and have written a helpful introduction to each section

**Chances for Alternatives** Peter Heinrich Ludes, 1987 **Chances for Alternatives** Peter Ludes, 1982 *Fate and Utopia in German Sociology, 1870-1923* Harry Liebersohn, 1990-08-15 *Fate and Utopia in German Sociology* provides a lucid introduction to a major sociological tradition in Western thought It is an intellectual history of five scholars Ferdinand Tönnies Ernst Troeltsch Max Weber Georg Simmel and Georg Lukács who created modern German sociology over the course of fifty years from 1870 to 1923 Liebersohn portrays his subjects as thinkers who were deeply immersed in the politics and poetry of their time and whose sociology benefited in unexpected ways from sources as diverse as medieval mysticism and Nietzsche's *Birth of Tragedy* He maps out their shared sociological discourse shaped in response to the fragmentation they perceived in public life in education and the arts and in Protestant religious life German sociology has generally been interpreted as having a tragic perspective on modern society as implied by the pervasive idiom of fate Liebersohn argues that this sense of fate was matched by an underlying utopian hope for an end to fragmentation rooted for all of his subjects in the Lutheran idea of community The book's five biographical chapters are structured to discuss ideas of community society and personality in the work of the individual discussed while there is a general movement among the chapters from community to society to socialism Many specific texts are discussed and the overall orientation is one of intellectual history rather than sociological analysis *German Unification and Transformation of Europe* Institute for the Culture of German-Speaking Areas (Tōkyō), Jōchi Daigaku. Doitsugoken-Bunka-Kenkyūsho, 1998 *Spirit and System* Dominic Boyer, 1996 Combining ethnography history and social theory Dominic Boyer's *Spirit and System* exposes how the shifting fortunes and social perceptions of German intellectuals in the nineteenth and twentieth centuries influenced Germans' conceptions of modernity and national culture Boyer analyzes the creation and mediation of the social knowledge of Germanness from nineteenth century university culture and its philosophies of history to the media systems and redemptive public cultures of the Third Reich and the German Democratic Republic to the present day experiences of former East German journalists seeking to explain life in post unification Germany Throughout this study Boyer reveals how dialectical knowledge of Germanness that is knowledge that emphasizes a cultural tension between an inner spirit and an external system of social life is modeled unconsciously upon intellectuals' self knowledge as it tracks their fluctuation between alienation and utopianism in their interpretations of nation and modernity

Georg Lukács Michael Löwy, 2023-11-21 On the 100th anniversary of the publication of *History and Class Consciousness*

a new edition of this indispensable guide to Lukacs's thought and politics. The philosophical and political development that converted Georg Lukacs from a distinguished representative of Central European aesthetic vitalism into a major Marxist theorist and Communist militant has long remained an enigma. In this this now classic study Michael Lowy for the first time traced and explained the extraordinary mutation that occurred in Lukacs's thought between 1909 and 1929. Utilizing many as yet unpublished sources, Lowy meticulously reconstructed the complex itinerary of Lukacs's thinking as he gradually moved towards his decisive encounter with Bolshevism. The religious convictions of the early Lukacs, the peculiar spell exercised on him and on Max Weber by Dostoyevskyan images of pre-revolutionary Russia, the nature of his friendships with Ernst Bloch and Thomas Mann were amongst the discoveries of the book. Then in a fascinating case study in the sociology of ideas, Lowy showed how the same philosophical problematic of Lebensphilosophie dominated the intelligentsias of both Germany and Hungary in the pre-war period, yet how the different configurations of social forces in each country bent its political destiny into opposite directions. The famous works produced by Lukacs during and after the Hungarian Commune, *Tactics and Ethics*, *History and Class Consciousness* and *Lenin* were analysed and assessed. A concluding chapter discussed Lukacs's eventual ambiguous settlement with Stalinism in the thirties and its coda of renewed radicalism in the final years of his life. In this new edition, Lowy has added a substantial new introduction which reassesses the nature of Lukacs's thought in the light of newly published texts and debates.

Over the last decade, scholars have begun to challenge this view. In this innovative work, George Cavalletto moves this challenge forward by connecting it to theoretical and analytical practices of the early 20th century. His analysis of key texts by Sigmund Freud, Max Weber, Theodor Adorno, and Norbert Elias shows that they crossed the psycho-social divide in ways that can help contemporary scholars to re-establish an analytical and theoretical understanding of the inherent interconnection of these

two domains This book will particularly interest scholars and students in sociology and social psychology especially those in the fields of social theory the sociology of emotion self and society and historical sociology     *Announcements* University of Chicago,1929     *German Sociology: T.W.
