Transformative Approaches to Social Justice Education is structured as an ongoing conversation among educators who believe that teaching from a social justice perspective is about much more than the type of readings and assignments found on course syllabi. Drawing on the broadest possible definition of curriculum transformation the volume demonstrates that social justice education is about both educators social locations and about course content. It is also about knowing students and teaching beyond the traditional classroom to meaningfully include local communities social movements archives and colleagues in student and academic affairs. Premised on the notion that continuous learning and growth is critical to educators with deep commitments to fostering critical consciousness through their teaching. Transformative Approaches to Social Justice Education offers interdisciplinary and innovative collaborative approaches to curriculum transformation that build on and extend existing scholarship on social justice education. Newly committed and established social justice pedagogues share their experiences taking up the many difficult questions pertaining to what it means for all of us to participate in shaping a more just shared future    **The Edwardes Legacy** David Dean Edwards, 1992 Richard Edwardes was born 1525 in Somersetshire England.
