Ministry Of The Christian School Guidance Counselor:

The Ministry of the Christian School Guidance Counselor James W. Deuink, 1985 The purpose of this book is to help the reader recognize the importance of pupil personnel services in the Christian school and to provide assistance to those who will initiate such a program in their particular schools Pupil personnel services present a special problem to Christian school administrators Even the smallest school needs all the services we discuss in this volume However when the budget is limited many school officials are reluctant to hire an additional staff member Recognizing the problem a small school faces in providing proper personnel we have made a number of suggestions of ways to combine administrative duties with the traditional role of the counselor We have divided the various duties of the guidance counselor into three categories administrative counseling and clerical Not all of the counselor s activities lend themselves to these divisions but we have followed this approach in the interest of all readers including those who may not be familiar with the guidance aspect of education The first three chapters provide the foundation for the remainder of the book These three chapters along with Chapter 14 are addressed to the administrator and others responsible for the overall supervision of the school Chapters 4 through 13 provide instruction for the one responsible for carrying out the counselor s duties It is our conviction that the ministry of the local Christian school can be greatly enhanced by a well planned program of pupil personnel services We trust that you will give serious consideration to the ideas presented here Preface *Christian School Teacher* A. Duane Hooper, 2008-12 How many Christian school teachers are fully familiar with God s biblical mandates for their vocation School teachers inherently hold a powerful influence over students for good or bad This sobering reality should motivate all school administrators especially in Christian schools to ensure that their teachers are spiritually qualified Academic qualifications for teachers are essential but spiritual qualifications are critical for meeting the biblical goals of education In fact it is the spiritual motivation and qualification of teachers that should be the greatest area of concern during the process of selecting faculty members to serve in Christian schools Veteran teacher and Christian counselor Hooper offers twenty one defining principles that separate Christian teachers from those who are not Christian Do today s school teachers make the grade This book is a must read for all who aspire to serve God effectively in the school classroom Duane Hooper is a school teacher principal ordained minister and board certified Christian counselor His ministry was providentially redirected from the pastorate to education in 1990 when he began serving as teacher at Bay Area Christian School in League City Texas While serving as teacher and junior high principal his passion for Christian education intensified Concerning the influence held by teachers especially in light of Christ s love for children Duane was burdened regarding the need for Christian teachers to model not just Spiritual fruit but Christ s express love for children Duane s love for students is manifested in his several nominations to Who s Who Among America s Teachers With both masters and doctoral degrees in Christian education and a Ph D in Christian Counseling Duane has an ardent passion to share what he believes to be a Bible based vision for the
