Miracle Mongers and Their Methods Houdini, 2013-02-21 No performer should attempt to bite off red hot iron unless he has a good set of teeth Harry Houdini Harry Houdini was an American stunt performer noted for his sensational escape acts He first attracted notice as Harry Handcuff Houdini on a tour of Europe where he sensationaly challenged different police forces to try to keep him locked up In Miracle Mongers and their Methods Harry Houdini turns a critical eye to wonders such as The Incombustible Spaniard or Defiers of Poisonous Reptiles The timeless fascination with miracles and astonishing claims makes this classic as timely as when it was originally written cover image courtesy of Michal Zacharzewski

Miracle Mongers and Their Methods Harry Houdini, 1920 [The Miracle Mongers, an Expos](#) Harry Houdini, 2020-09-28 Fire has always been and seemingly will always remain the most terrible of the elements To the early tribes it must also have been the most mysterious for while earth and air and water were always in evidence fire came and went in a manner which must have been quite unaccountable to them Thus it naturally followed that the custom of deifying all things which the primitive mind was unable to grasp led in direct line to the fire worship of later days That fire could be produced through friction finally came into the knowledge of man but the early methods entailed much labor Consequently our ease loving forebears cast about for a method to keep the home fires burning and hit upon the plan of appointing a person in each community who should at all times carry a burning brand This arrangement had many faults however and after a while it was superseded by the expedient of a fire kept continually burning in a building erected for the purpose The Greeks worshiped at an altar of this kind which they called the Altar of Hestia and which the Romans called the Altar of Vesta The sacred fire itself was known as Vesta and

its burning was considered a proof of the presence of the goddess The Persians had such a building in each town and village and the Egyptians such a fire in every temple while the Mexicans Natches Peruvians and Mayas kept their national fires burning upon great pyramids Eventually the keeping of such fires became a sacred rite and the Eternal Lamps kept burning in synagogues and in Byzantine and Catholic churches may be a survival of these customs There is a theory that all architecture public and private sacred and profane began with the erection of sheds to protect the sacred fire This naturally led men to build for their own protection as well and thus the family hearth had its genesis Another theory holds that the keepers of the sacred fires were the first public servants and that from this small beginning sprang the intricate public service of the present The worship of the fire itself had been a legacy from the earliest tribes but it remained for the Rosicrucians and the fire philosophers of the Sixteenth Century under the lead of Paracelsus to establish a concrete religious belief on that basis finding in the Scriptures what seemed to them ample proof that fire was the symbol of the actual presence of God as in all cases where He is said to have visited this earth He came either in a flame of fire or surrounded with glory which they conceived to mean the same thing The Miracle Mongers And Their Methods Harry
