**Marx's Construction of Social Theory (RLE Marxism)** J.M. Barbalet, 2015-04-17 This study first published in 1983 explores the connections between Marx's philosophy and his empirical analysis of society and state by showing the different meanings of many of Marx's concepts as their role in his theory changes and the theory itself develops. Beginning with an examination of Marx's search for a sound epistemological basis on which to build a social theory Dr Barbalet then gives an analysis of the way in which Marx continually modifies the concepts he uses and continues with an examination of the different functions they are given in different theoretical settings. Various nuances of Marx's thought often obscured by the simplistic early/late dichotomy are revealed by Dr Barbalet's close attention to the progressive transformation of Marx's concepts and by his scrupulous analysis of them in not only their textual but also their theoretical context. Finally the book examines the manner in which Marx's construction of social theory by its very nature means that some material is replaced by other theoretical fabric as the theoretical structure itself is in different ways dismantled and reorganised as Marx's thought evolves and develops.

**ON THE WISDOM OF CHINA** FU-CHUN PENG, 2021-08-04 Truthfully and accurately this book attempts to elucidate the nature and forms of China's ancient wisdom and reinterpret its ideological significance thereby activating its inherent vitality and promoting the construction of contemporary Chinese thought. The wisdom of China with its own discourse system gives unique stipulations to existence, thought and language. Confucianism, Taoism and Chan Buddhism as the historical manifestations of Chinese wisdom respectively express the thoughts between man and man, between man and nature and between man and mind. In fact these three aspects exactly constitute the whole of man's life world. The thoughts of Confucianism, Taoism and Chan Buddhism are mainly and respectively represented in The Four Books and Five Classics, Lao Zi and Zhuang Zi and Tan Jing. The Sutra of Hui Neng. The wisdom of China is different from the non-natural wisdom of the West as it is fundamentally a natural wisdom according to which nature is the basis of human existence, thought and language. However in early modern times the natural history of China was confronted with an unprecedented crisis. Ever since then China has entered the post-natural era. The coexistence of Heaven and man as the new wisdom of China can be created in the age of globalization through preserving the living elements and eliminating the dead parts in the traditional Chinese wisdom.
