Nature Transformed Wood Art From The Bohlen Collection:

Nature Transformed Sean M. Ulmer, Janice Blackburn, Terry Martin, David Revere McFadden, 2004 This publication presents a selection of wood based works from the collection of Robert Bohlen one of the finest and most thorough collectors of wood art. The artistic progress of the medium is analyzed by a wide array of essays. **A Revolution in Wood** Nicholas R. Bell, 2010-09-21 A Revolution in Wood celebrates the magnificent gift of sixty six pieces of turned and carved wood to the Renwick Gallery of the Smithsonian American Art Museum by the distinguished collectors Fleur and Charles Bresler. Illustrated in lavish detail works by this country's best known wood artists highlight the growing sophistication of American craft's youngest medium and the expressive capacity of its most organic material. Masterpieces by the field's pioneers including David Ellsworth, William Hunter, Mark and Melvin Lindquist, Edward Moulthrop and Rude Osolnik demonstrate the extraordinary range of expression achievable on the lathe the medium's foundational tool. Compelling recent works by Ron Fleming, Michelle Holzapfel, Hugh McKay, Norm Sartorius, Mark Sfirri and many others reveal the advent of new techniques including multi axis turning, the incorporation of secondary materials and a strong focus on carving. A wide ranging essay by Renwick Curator Nicholas R. Bell examines contemporary wood art's historical roots and its rapid growth since the 1970s. Particular attention is given to the medium's development outside the studio craft movement and how that dynamic has shaped the current field. An interview with Fleur Bresler by former Renwick Curator in Charge Kenneth R. Trapp offers a window on the collector's passion and highlights her twenty five year dedication to wood and to the artists she considers family. The final section Wood Art at the Renwick Gallery illustrates in color over two hundred works by more than one hundred artists making this premier public collection available in print for the first time. From James Prestini's original gift of twenty pieces before the Renwick's opening to experimental works by current artists this guide to the Smithsonian's collection will serve as a reference for years to come.

New Masters of Woodturning Kevin Wallace, Terry Martin, 2016-01-01 MEET THIRTY ONE CONTEMPORARY ARTISTS PUSHING THE BOUNDARIES OF A CLASSIC CRAFT. They are from different parts of the world but share a common passion turning wood into sculptural forms of self expression. You'll see each artist at work in their studios homes and at the lathe and discover why their stunning work is considered to be preeminent in the respective fields of woodturning and modern art. A gallery of beautiful photographs is included. *New Masters of Woodturning* looks beyond the surface of the wood and into the vision and mind of the artist providing insights that offer a captivating and important perspective of turn of the century art and craft. **Performing Home** Stuart Andrews, 2019-12-09 Performing Home is the first sustained study of the ways in which artists create artworks in and in response to domestic dwellings. In the context of growing interest in ideas and practices that cross between architecture, arts practice and performance it is valuable to understand what happens when artists make work in and about specific buildings. This is particularly important with domestic dwellings which can be bound up with experiences, issues, practices and

understandings of home The book focuses on a range of recent artistic projects to identify and investigate critical ways by which artists practise domestic dwellings In doing so it addresses the ways in which artists enquire into a dwelling are resident in a dwelling adapt the form of a dwelling practise a mobile dwelling and make a dwelling By considering these practices together Andrews demonstrates the breadth and significance of recent artistic engagement in and with domestic dwellings and highlights the contribution that artistic practice can make to the ways in which we understand the form and practice of a building Performing Home will be of particular relevance to scholars students and practitioners in architecture art and performance to those in geography material culture and cultural studies and to anyone seeking to make sense of the place in which they live **Craft Arts International** ,2004 Edge of the Sublime Jeannine J.
