Nature Of Generosity:

The Nature of Generosity William Kittredge, 2001-11-13 The Nature of Generosity is at once a natural sequel to the acclaimed memoir *Hole in the Sky* and an entirely unique masterwork from one of the finest writers of the American West Taking as his topic the ordinary yearning to take physical and emotional care William Kittredge embarks upon a literary and philosophical grand tour that explores the very core of who we are Whether he s recalling a childhood in Oregon touring Europe or studying photographs of Japanese gardens in a bookstore in New York City Kittredge s connections are as unexpected as they are inspiring Shattering the myth that survival of the fittest means survival of the violent or the cruelest or the selfish Kittredge imagines a world in which altruism dominates and offers ample evidence that this is not an unreachable utopian ideal

The Nature of Generosity William Kittredge, 2010-09-22 Hailed as one of our finest writers about the American West William Kittredge now brings all his experience and intelligence to bear on the wider and wilder West of our civilization In certain respects *The Nature of Generosity* continues the story of *Hole in the Sky* the acclaimed memoir of Kittredge s early life on his family s vast ranch in Oregon but it also ranges freely and exhilaratingly around the world and through recorded time A travel book of sorts from New York and Venice to the Andalusian hills of Garc a Lorca from the cow towns of Montana to the caves at Lascaux it is driven by the quest to reconcile childhood simplicities with the complex urgent adult questions about who to be and how and why Drawing on our various histories biological cultural psychological Kittredge celebrates diversity as the cornerstone of our social possibilities examines the freedom and responsibility this entails and suggests that our culture s habitually selfish combative behavior is far from being in our best interests or indeed in our nature Less geographical than philosophical at once learned and curious observant and personal *The Nature of Generosity* is a revolutionary and practical magnum opus
