The Handbook of Race, Ethnicity, Crime, and Justice Ramiro Martinez, Jr., Meghan E. Hollis, Jacob I. Stowell, 2018-06-08

This Handbook presents current and future studies on the changing dynamics of the role of immigrants and the impact of immigration across the United States and industrialized and developing nations. It covers the changing dynamics of race, ethnicity, and immigration and discusses how it all contributes to variations in crime, policing, and the overall justice system. Through acknowledging that some groups, especially people of color, are disproportionately influenced more than others in the case of criminal justice reactions, the War on Drugs, and hate crimes, this Handbook introduces the importance of studying race and crime so as to better understand it. It does so by recommending that researchers concentrate on ethnic diversity in a national and international context in order to broaden their demographic and expand their understanding of how to attain global change. Featuring contributions from top experts in the field, *The Handbook of Race and Crime* is presented in five sections: An Overview of Race, Ethnicity, Crime, and Justice; Theoretical Perspectives on Race and Crime; Race, Gender, and the Justice System; Gender and Crime; and Race, Gender, and Comparative Criminology. Each section of the book addresses a key area of research, summarizes findings or shortcomings whenever possible, and provides new results relevant to race, crime, and justice. Every contribution is written by a top expert in the field and based on the latest research. With a sharp focus on contemporary race, ethnicity, crime, and justice studies, *The Handbook of Race and Crime* is the ideal reference for advanced undergraduate students, graduate students, and scholars interested in the disciplines such as Criminology, Race and Ethnicity, Race and the Justice System, and the Sociology of Race.

Handbook for Culturally Competent Care Eric A. Fenkl, Larry D. Purnell, 2024-10-22. The second edition of this incisive book, based on the

Purnell Model for Cultural Competence addresses the potentially challenging topic of culture in a forthright style. It is a valuable resource in today's team-based healthcare environment preparing health professionals regardless of setting to conduct in-depth assessments of individuals and families from culturally specific population groups. This book will appeal to all healthcare workers in all fields and it is particularly suitable for nurses interacting with patients in very diverse settings. This book delves into 32 different cultures and areas of support common to all individuals and families that health professionals must recognize and consider. African American, American Indian, Brazilian, Cuban, Chinese, Korean, and Filipino, but also Arab, Hindu, or Haitian, as well as many European heritages are examined among others. Brand new chapters explore Greek, Italian, Jamaican, Thai, and Ukrainian heritages. For each culture, chapters detail communication styles, family roles, workforce issues, biocultural ecology, and high-risk health behaviours. Also discussed are nutrition, pregnancy, and childbearing, death rituals, spirituality, healthcare practices, and the perceptions of traditional, magical, religious, and biomedical healthcare providers. Culture's characteristics such as age, generation, gender, religion, educational, marital, parental, socioeconomic, or even military status, but also political beliefs, physical characteristics, sexual orientation, or gender issues determining the diversity of values, beliefs, and practices in an individual's cultural heritage in order to help prevent stereotyping are discussed. At the end of each chapter, readers are provided with specific instructions, guidelines, tips, intervention strategies, and approaches specific to a particular cultural population. Additionally, reflective exercises help the reader reinforce the concepts presented in each chapter. For this second edition, most of the chapters are authored by individuals who either identify with the culture being addressed in the chapter or have personal knowledge of the culture via life experiences.

Howard M. Bahr, 1999-06. The Navajo are the largest tribe of Indians in the United States and due in part to a fascination with their relative isolation have been analyzed in numerous documentaries. In this timely supplement to the Navajo Bibliography, Howard M. Bahr engages in a unique postmodern approach to his bibliography of the Navajo culture by combining health-related, artistic, economic, religious, social, scientific, and other literature on the Navajo into one study. The bibliography skillfully downplays disciplinary boundaries by unifying literature that has previously only offered separate

classification and access The more than 6 300 entries are selectively annotated and cover Navajo literature from 1970 to 1990 as well as newly discovered literature including Franciscans literature that was not included in the original Navajo Bibliography This bibliography is not only the most comprehensive bibliography to date in its coverage of more than two decades of new material but the only source that supplements the professional literature with local and cultural works An exhaustive resource that effectively doubles the expanse of Navajo literature surveyed and indexed Din Bibliography to the 1990s is an invaluable tool that both highlights the literature already available and expands such data to include coverage of genres that have been previously underrepresented *Ethnographic Bibliography of North America, 4th Edition: Citations* M. Marlene Martin,1990 *Domestic Violence Law* Nancy K. D. Lemon,1996 A unique and comprehensive collection of sources including published appellate cases and law review articles but also selections from the fields of sociology psychology and anthropology Samples of current legislation Congressional memoranda restraining order forms and articles from the popular press including newsletters and brochures from hard to obtain sources are included Ms Lemon has taught this course since 1988 and has written many pioneering pieces of legislation in this area The materials are comprehensive in examining different points of view on the subject of domestic violence law They help the student explore the tension between theory and practice a critical point in teaching this subject A historical perspective is given so that students can see both the ways the laws have changed over the past century and also the ways they have not changed This reader lends itself to discussions of the role of the attorney in crafting the law not simply following it
