Nazis Strike:

Hollywood's War with Poland, 1939-1945 M.B.B. Biskupski, 2010-01-08 During World War II Hollywood studios supported the war effort by making patriotic movies designed to raise the nation's morale. They often portrayed the combatants in very simple terms: Americans and their allies were heroes and everyone else was a villain. Norway, France, Czechoslovakia, and England were all good because they had been invaded or victimized by Nazi Germany. Poland, however, was represented in a negative light in numerous movies. In *Hollywood's War with Poland 1939-1945* M. B. B. Biskupski draws on a close study of prewar and wartime films such as *To Be or Not to Be* (1942), *In Our Time* (1944), and *None Shall Escape* (1944). He researched memoirs, letters, diaries, and memoranda written by screenwriters, directors, studio heads, and actors to explore the negative portrayal of Poland during World War II. Biskupski also examines the political climate that influenced Hollywood films.

Experiments on Mass Communication C. I. Hovland, A. A. Lumsdaine, 2017-03-14 Volume III in the series *Studies in Social Psychology in World War II*. The Army proved to be a worldwide laboratory for film research and research on other means of getting across both technical information and indoctrination. Findings are of direct importance to film makers, educators. The British Press and Nazi Germany Kylie Galbraith, 2020-12-10 What was known and understood about the nature of the Nazi dictatorship in Britain prior to war in 1939? How was Nazism viewed by those outside of Germany? The British Press and Nazi Germany considers these questions through the lens of the British press. Until now, studies that centre on British press attitudes to Nazi Germany have concentrated on issues of foreign policy. The focus of this book is quite different. In using material that has largely been neglected, Kylie Galbraith examines what the British press reported about life inside the Nazi dictatorship. In doing so, the book imparts important insights into what was known and understood about the Nazi revolution. And because the overwhelming proportion of the British public's only means of news was the press, this volume shows what people in Britain could have known about the Nazi dictatorship. It reveals what the British people were being told about the regime, specifically the destruction of Weimar democracy, the ruthless persecution of minorities, the suppression of the churches, and the violent factional infighting within Nazism itself. This pathbreaking examination of the British press coverage of Nazism in the 1930s greatly enhances our knowledge of the fascist regime with which the British Government was attempting to reach agreement at the time.
