

A large, circular, stylized illustration of a dragon breathing fire, with a large, stylized 'G' shape in the background. The dragon is depicted in a dynamic pose, breathing a large plume of fire. The background is a light, hazy landscape with a large, stylized 'G' shape. The overall style is reminiscent of traditional Japanese ink wash painting, but with a more modern, digital feel. The colors are muted, with a lot of grey and brown tones, and some red highlights from the fire. The text '後日本' is visible in the top right corner, and '黒から負へ。' is written vertically on the right side.

## **Minus One:**

**Lao People's Democratic Republic** International Monetary Fund, 2007-11-07 The staff report for the 2007 Article IV Consultation on the Lao People's Democratic Republic PDR explains economic performance Growth is robust and increasingly reliant on large export oriented mining and hydropower projects The economic outlook is promising but the outcome clearly depends on the government's policy response to the emerging resource bonanza The current fiscal regimes for the resource sector have several sound features but some improvements are needed to align them to best international practices

**Djibouti** International Monetary Fund, 2009-07-21 This 2008 Article IV Consultation highlights that Djibouti's macroeconomic performance improved significantly but inflation pressures are intensifying Real GDP growth accelerated to 5.3 percent in 2007 driven mainly by foreign direct investment concentrated in the construction and port services Executive Directors have welcomed Djibouti's strong economic growth driven by large foreign direct investments in the port and other key sectors of the economy Directors have also emphasized the importance of maintaining the fiscal consolidation objective with a view to controlling inflation and creating fiscal space to finance the poverty reduction strategy

**Solomon Islands** International Monetary Fund, 2010-07-08 The effects of the global recession and decline in logging have undermined macroeconomic stability in the Solomon Islands The government's program offers a basis for resuming strong growth in a low inflation environment helping to advance poverty alleviation efforts and achieve other development objectives The current monetary policy stance is broadly appropriate with monetary targets sufficiently accommodative to support economic recovery Sound steps toward strong financial sector policy have been taken The program while not without risk is well focused and sufficiently ambitious

**Kingdom of Lesotho** International Monetary Fund, 2012-05-11 This staff report examines the Kingdom of Lesotho's 2012 Article IV Consultation and second and third reviews under the three year arrangement under the Extended Credit Facility Real GDP growth for 2010-11 is estimated at 5.4 percent and inflation rose gradually in 2011 driven by international commodity prices Despite the sharp drop in Southern African Customs Union SACU revenues fiscal performance in 2010-11 has been much better than programmed reflecting higher domestic revenue collections and cuts in recurrent spending

**Sudan** International Monetary Fund, 2010-08-02 Sudan has been adversely affected by the global crisis through a sharp decline in oil receipts Executive Directors welcomed the Staff Monitored Program SMP which aimed to reduce the fiscal deficit tighten monetary stance and increase exchange rate flexibility Directors urged the authorities to maintain prudent macroeconomic policies and to accelerate fiscal and financial sectors as well as structural reforms Directors agreed that progress on debt relief under HIPC for Sudan is essential to remove the debt overhang and regain access to concessional financing for development and social projects

**Republic of Mozambique** International Monetary Fund, 2009-02-10 This paper presents the staff report on the Republic of Mozambique's Third Review under the policy support instrument Mozambique is vulnerable to the global financial crisis and economic slowdown Lower

import prices will help reduce inflation and likely benefit the trade balance Lower export volumes and reduced private capital inflows are expected to reduce economic growth The turbulence could also spread to the financial system despite its limited integration into global financial markets The government is focusing on strengthening policy operations giving special attention to the tax system and public financial management

**Kingdom of Lesotho** International Monetary Fund. African Dept.,2013-09-20 This paper highlights the Kingdom of Lesotho s Sixth Review Under the Three Year Arrangement under the Extended Credit Facility Lesotho has maintained robust economic growth with moderate inflation The IMF report shows that economic growth is expected to exceed 4 percent supported by a recovery in agricultural production enhanced construction and mining sector expansion The reconciliation of treasury accounts has been delayed largely owing to insufficient collaboration between the treasury and budgetary agencies To address the problem the Ministry of Finance issued a circular in June 2013 to enforce reconciliation reporting by all such agencies
