## **Miracle Under The Oaks The Revival Of Nature In America:**

Miracle Under the Oaks William Kenneth Stevens, 1995 A vital new environmental restoration movement comprised of everyday people and sponsored by organizations like The Nature Conservancy has sprouted up in America Miracle Under the Oaks brings alive one of its most astonishing victories the recovery of the Vestal Grove eco system along the Chicago River

Miracle Under the Oaks William K. Stevens, **Miracle Under the Oaks: The Revival of Nature in America ,**

**Restoring Nature** , Using a recent controversy over ecological restoration efforts in Chicago as a touchstone for discussion Restoring Nature explores the difficult questions that arise during the planning and implementation of restoration projects in urban and wildland settings **Nature by Design** Eric Higgs, 2003-04-25 Ecological restoration is the process of repairing human damage to ecosystems It involves reintroducing missing plants and animals rebuilding soils eliminating hazardous substances ripping up roads and returning natural processes such as fire and flooding to places that thrive on their regular occurrence Thousands of restoration projects take place in North America every year In Nature by Design Eric Higgs argues that profound philosophical and cultural shifts accompany these projects He explores the ethical and

philosophical bases of restoration and the question of what constitutes good ecological restoration Higgs explains how and why the restoration movement came about where it fits into the array of approaches to human relationships with the land and how it might be used to secure a sustainable future Some environmental philosophers and activists worry that restoration will dilute preservation and conservation efforts and lead to an even deeper technological attitude toward nature They ask whether even well conceived restoration projects are in fact just expressions of human will Higgs prefaces his responses to such concerns by distinguishing among several types of ecological restoration He also describes a growing gulf between professionals and amateurs Higgs finds much merit in criticism about technological restoration projects which can cause more damage than they undo These projects often ignore the fact that changing one thing in a complex system can change the whole system For restoration projects to be successful Higgs argues people at the community level must be engaged These focal restorations bring communities together helping volunteers develop a dedication to place and encouraging democracy

**Making Nature Whole** William R. Jordan, George M. Lubick, 2011-07-26 Making Nature Whole is a seminal volume that presents an in depth history of the field of ecological restoration as it has developed in the United States over the last three decades The authors draw from both published and unpublished sources including archival materials and oral histories from early practitioners to explore the development of the field and its importance to environmental management as well as to the larger environmental movement and our understanding of the world Considering antecedents as varied as monastic gardens the Scientific Revolution and the emerging nature awareness of nineteenth century Romantics and Transcendentalists Jordan and Lubick offer unique insight into the field s philosophical and theoretical underpinnings They examine specifically the more recent history including the story of those who first

attempted to recreate natural ecosystems early in the 20th century as well as those who over the past few decades have realized the value of this approach not only as a critical element in conservation but also as a context for negotiating the ever changing relationship between humans and the natural environment Making Nature Whole is a landmark contribution providing context and history regarding a distinctive form of land management and giving readers a fascinating overview of the development of the field It is essential reading for anyone interested in understanding where ecological restoration came from or where it might be going *The Work of Belonging* Devin DeWayne Corbin,2005

**The Virginia Quarterly Review** ,1995 *Nature, Class, and Built World* Andrew Light,1996 **American Environmental Leaders [2 volumes]**

Anne Becher,2000 A comprehensive and diverse award winning collection of biographies of the most important figures in American environmentalism American Environmental Leaders presents more than 350 biographies of men and women who have devoted their lives to studying debating and organizing these and other controversial issues over the last 200 years In addition to the scientists who have analyzed how human actions affect nature we are introduced to poets landscape architects presidents painters activists even sanitation engineers and others who have forever altered how we think about the environment The easy to use A Z format provides instant access to these fascinating individuals and frequent cross references indicate others with whom individuals worked and sometimes clashed End of entry references provide users with a starting point for further research Easy to use A Z format provides instant access to these fascinating individuals and frequent cross references indicate others with whom individuals worked and sometimes clashed End of entry references provide users with a starting point for further research

**New York Times Saturday Book Review Supplement** ,1995-04 *Miracle Under the Oaks* William K. Stevens,1996-05 Our planet is nearing ecological disaster but a vital restoration movement involving everyday people and private organizations like the Nature conservancy has sprouted up in America Miracle under the Oaks brings alive one of its victories the revival of a long lost ecosystem along the Chicago River Here is the triumphant story of a grassroots movement to help heal the planet and a blueprint for future change *The Once and Future Forest* Leslie Sauer,1998-02 Developed by the pioneering landscape design firm of Andropogon Associates world renowned for their innovative approach to integrating environmental protection and restoration with landscape architecture and design The Once and Future Forest is a guidebook for restoring and managing natural landscapes Focusing on remnant forest systems it describes methods of restoring and linking forest fragments to recreate a whole landscape fabric The book begins by explaining the history and current situation of forest ecosystems in the eastern United States Following that is an in depth examination of the restoration process with thorough descriptions of ecological strategies for landscape management along with specific examples of how those strategies have been implemented in various sites around the country The final section provides hands on information about the many specific details that must be considered when initiating and implementing a restoration program All aspects of the restoration process are considered including Water

opportunities for increasing infiltration reducing pollutants promoting habitat values Ground methods of protecting existing vegetation removing fill rebuilding soils Plants strategies and procedures for planting maintenance propagation Wildlife guidelines for preserving wildlife resources management techniques to favor selected specie The Once and Future Forest presents a comprehensive approach to assessing sites detailed guidelines for determining management goals and a thorough overview of appropriate management and restoration techniques It is an important guide for professional planners and landscape architects government agency personnel at all levels land managers scientists involved in restoration work and citizen activists who wish to do something constructive about our deteriorating forest patches     **Going Wild** Jan E. Dizard,1999 First published in 1994 this is an examination of the ways in which different conceptions of nature shape our responses to specific environmental issues In this revised edition Jan E Dizard adds a new chapter updating the controversy over the state managed deer hunt at the Quabbin Reservoir in Massachusetts and placing it in a broader national context

**Nature's Restoration** Peter Friederici,2006-04-11 Nature s Restoration relates the passion of ordinary citizens who are changing the way we think about nature Through the work of restoration people are discovering a healthier way to interact with the land and helping to forge a new covenant with nature one that neither advocates human dominance nor expects return to a lost innocence On a planet suffering from serious ecological problems Peter Friederici shows us that the restoration movement is a refreshing attempt to set things right BOOK JACKET     Journal of Higher Education Outreach and Engagement ,2008     *Kentucky Journal of Equine, Agriculture, and Natural Resources Law* ,2009     Out of the Shadow Rinda West,2007 In western culture the separation of humans from nature has contributed to a schism between the conscious reason and the unconscious dreaming psyche or internal human nature Our increasing lack of intimacy with the land has led to a decreased capacity to access parts of the psyche not normally valued in a capitalist culture In Out of the Shadow Ecopsychology Story and Encounters with the Land Rinda West uses Jung s idea of the shadow to explore how this divorce results in alienation projection and often breakdown Bringing together ideas from analytical psychology environmental thought and literary studies West explores a variety of literary texts including several by contemporary American Indian writers to show through a sort of geography of the psyche how alienation from nature reflects a parallel separation from the nature that constitutes the unconscious Through her analysis of narratives that offer images of people confronting shadow reconnecting with nature and growing psychologically and ethically West reveals that when characters enter into relationship with the natural world they are better able to confront and reclaim shadow By writing from the shadows West argues that contemporary writers are exploring ways of being human that have the potential for creating more just and honorable relationships with nature and more sustainable communities For ecocritics conservation activists scholars and students of environmental studies and American Indian studies and ecopsychologists Out of the Shadow offers hope for humans wishing to reconcile with themselves with nature and with community     *Transactions of the ...
