Animation: A World History Giannalberto Bendazzi, 2015-11-06 A continuation of 1994's groundbreaking *Cartoons* Giannalberto Bendazzi's *Animation A World History* is the largest, deepest, most comprehensive text of its kind based on the idea that animation is an art form that deserves its own place in scholarship. Bendazzi delves beyond just Disney, offering readers glimpses into the animation of Russia, Africa, Latin America, and other often neglected areas, and introducing over fifty previously undiscovered artists. Full of first-hand, never-before-investigated and elsewhere unavailable information, *Animation A World History* encompasses the history of animation production on every continent over the span of three centuries. Volume III catches you up to speed on the state of animation from 1991 to present. Although characterized by such trends as economic globalization, the expansion of television series, emerging markets in countries like China and India, and the consolidation of elitist auteur animation, the story of contemporary animation is still open to interpretation. With an abundance of first-hand research and topics ranging from Nickelodeon and Pixar to modern Estonian animation, this book is the most complete record of modern animation on the market and is essential reading for all serious students of animation history. **Key Features:** Over 200 high-quality headshots and film stills to add visual reference to your research. Detailed information on hundreds of never-before-researched animators and films. Coverage of animation from more than 90 countries and every major region of the world. Chronological and geographical organization for quick access to the information you're looking for.

Boom Michael Shnayerson, 2019-05-21 The meteoric rise of the largest unregulated financial market in the world for contemporary art is driven by a few passionate, guileful and very hard-nosed dealers. They can make and break careers and fortunes. The contemporary art market is an international juggernaut throwing off multimillion-dollar deals as wealthy buyers move from fair to fair, auction to auction, party to glittering party. But none of it would happen without the dealers, the tastemakers who back emerging artists and steer them to success, often to see them picked off by a rival. Dealers operate within a private world of handshake agreements, negotiating for the highest commissions. Michael Shnayerson, a longtime contributing editor to *Vanity Fair*, writes the first ever definitive history of their activities. He has spoken to all of today's so-called mega-dealers: Larry Gagosian, David Zwirner, Arne and Marc Glimcher, and Iwan Wirth, along with dozens of other dealers from Irving Blum to Gavin Brown, who worked with the greatest artists of their times: Jackson Pollock, Andy Warhol, Cy Twombly, and more. This kaleidoscopic history begins in the mid-1940s in genteel poverty with a scattering of galleries in midtown Manhattan, takes us through the ramshackle 1950s studios of Coenties Slip, the hipster locations in SoHo and Chelsea, London's Bond Street, and across the terraces of Art Basel, until today. Now dealers and auctioneers are seeking the first billion-dollar painting. It hasn't happened yet, but they are confident they can push the price there soon.
