### **Persia in Early**

**Modern English Drama, 1530-1699** Chloë Houston,2023-05-01 This book is a study of the representation of the Persian empire in English drama across the early modern period from the 1530s to the 1690s The wide focus of this book encompassing thirteen dramatic entertainments both canonical and little known allow it to trace the changes and developments in the dramatic use of Persia and its people across one and a half centuries It explores what Persia signified to English playwrights and audiences in this period the ideas and associations conjured up by mention of Persia and where information about Persia came from It also considers how ideas about Persia changed with the development of global travel and trade as English people came into people with Persians for the first time In addressing these issues this book provides an examination not only of the representation of Persia in dramatic material but of the broader relationship between travel politics and the theatre in early modern England

### *The Reputation of Edward II,*

1305-1697 Kit Heyam,2025-10-01 During his lifetime and the four centuries following his death King Edward II 1307 1327 acquired a reputation for having engaged in sexual and romantic relationships with his male favourites and having been murdered by penetration with a red hot spit This book provides the first account of how this reputation developed providing new insights into the processes and priorities that shaped narratives of sexual transgression in medieval and early modern England In doing so it analyses the changing vocabulary of sexual transgression in English Latin and French the conditions that created space for sympathetic depictions of same sex love and the use of medieval history in early modern political polemic It also focuses in particular on the cultural impact of Christopher Marlowe s Edward II c 1591 92 Through such close readings of poetry and drama alongside chronicle accounts and political pamphlets it demonstrates that Edward s medieval and early modern afterlife was significantly shaped by the influence of literary texts and techniques A literary transformation of historiographical methodology is it argues an apposite response to the factors that shaped medieval and early modern narratives of the past

**Telltale Women** Allison Machlis Meyer,2021 *Telltale Women* fundamentally reimagines the relationship between the history play and its source material as an intertextual one presenting evidence for a new narrative about how and why these genres disparately chronicle the histories of royal women Allison Machlis Meyer challenges established perceptions of source study historiography and the staging of gender politics in well known drama by arguing that chronicles and political histories frequently value women s political interventions and use narrative techniques to invest their voices with authority Dramatists who used these sources for their history plays thus encountered a historical record that offered surprisingly ample precedents for depicting women s perspectives and political influence as legitimate and writers for the commercial theater grappled with such precedents by reshaping source material to create stage representations of royal women that condemned queenship and female power By tracing how the sanctioning of women s political participation changes from the narrative page to the dramatic stage Meyer demonstrates that gender politics in both canonical and noncanonical history plays emerge from playwrights intertextual engagements with a rich alternative view of women in the narrative historiography of the sixteenth and seventeenth centuries

Bailey,2012 The question and procedures of integrating children into wider society during the medieval and early modern period are debated across a wide range of contemporary texts This study examines ways in which vernacular literature provided a guide to socialising children

Shakespeare Studies ,1968 Travels and Translations in the Sixteenth Century Tudor Symposium. International Conference,2004 In recent years the twin themes of travel and translation have come to be regarded as particularly significant to the study of early modern culture and literature Traditional notions of The Renaissance have always

emphasised the importance of the influence of continental as well as classical literature on English writers of the period and over the past twenty years or so this emphasis has been deepened by the use of more complicated and sophisticated theories of literary and cultural intertextuality as well as broadened to cover areas such as religious and political relations trade and traffic and the larger formations of colonialism and imperialism The essays collected here address the full range of traditional and contemporary issues providing new light on canonical authors from More to Shakespeare and also directing critical attention to many unfamiliar texts which need to be better known for our fuller understanding of sixteenth century English literature This volume makes a very particular contribution to current thinking on Anglo continental literary relations in the sixteenth century Maintaining a breadth and balance of concerns and approaches Travels and Translations in the Sixteenth Century represents the academic throughout Europe essays are contributed by scholars working in Hungary Greece Italy and France as well as in the UK Arthur Kinney s introduction to the collection provides an North American overview of what is perhaps a uniquely comprehensive index to contemporary European criticism and scholarship in the area of early modern travel and translation

Elizabethan and Jacobean Tragedy Robert Ornstein,Hazelton Spencer,1964      Shakespearean Gothic Christy Desmet,Anne Williams,2009 This book explores the paradox that the Gothic today s werewolves vampires and horror movies owe their origins and their legitimacy to eighteenth century interpretations of Shakespeare As Shakespeare was being established as the supreme British writer throughout the century he was cited as justification for early Gothic writers fascination with the supernatural their abandoning of literary decorum and their fascination with otherness and extremes of every kind
