Natural Obsessions:

Natural Obsessions Natalie Angier, 1999 Describes the search for the genes that control cancer **Natural Obsessions** Natalie Angier, 1999-04-01 As dramatic as *The Double Hex* and as absorbing as *The Soul of a New Machine* *Natural Obsessions* explores the advanced reaches of molecular biology the nature of the human cell and the genes that control cancer It unforgettably portrays some of the best young scientists in the world the rewards and discouragements of scientific research and the very process of scientific inquiry **One in Three** Adam Wishart, 2008-01-21 In Wishart's personal journalistic take on the history of cancer he offers an encouraging story of science's progress in changing the outlook on cancer from a disease that one dies from to one that can be lived with *Cancer-gate* Samuel Epstein, 2019-08-22 Award winning author Samuel S Epstein M D whose 1978 book *The Politics of Cancer* shook the political establishment by showing how the federal government had been corrupted by industrial polluters has written a book that is sure to be of equal consequence *Cancer Gate How to Win the Losing Cancer War* is a groundbreaking new book It warns that contrary to three decades of promises we are losing the winnable war against cancer and that the hand in glove generals of the federal National Cancer Institute NCI and the private nonprofit American Cancer Society ACS have betrayed us These institutions Epstein alleges have spent tens of billions of taxpayer and charity dollars primarily targeting silver bullet cures strategies that have largely failed while virtually ignoring strategies for preventing cancer in the first place As a result cancer rates have escalated to epidemic proportions now striking nearly one in every two men and more than one in every three women This translates into approximately 50 percent more cancer in men and 20 percent more cancer in women over the course of just one generation [American Women of Science since 1900](#) Tiffany K. Wayne, 2010-10-11 A comprehensive examination of American women scientists across the sciences throughout the 20th century providing a rich historical context for understanding their achievements and the way they changed the practice of science Much more than a *Who's Who* this exhaustive two volume encyclopedia examines the significant achievements of 20th century American women across the sciences in light of the historical and cultural factors that affected their education employment and research opportunities With coverage that includes a number of scientists working today the encyclopedia shows just how much the sciences have evolved as a professional option for women from the dawn of the 20th century to the present *American Women of Science since 1900* focuses on 500 of the 20th century's most notable American women scientists many overlooked undervalued or simply not well known In addition it offers individual features on 50 different scientific disciplines *Women in Astronomy* etc as well as essays on balancing career and family girls and science education and other sociocultural topics Readers will encounter some extraordinary scientific minds at work getting a sense of the obstacles they faced as the scientific community faced the questions of feminism and gender confronting the nation as a whole [The Graces of Interior Prayer](#) Augustin Poulain, 1912 **Current Catalog** National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70
