## Natural Religion:

**Natural Religion** Friedrich Max Müller, 1889      **Natural Religion and the Nature of Religion** Peter Byrne, 2013-05-02 This study offers students of religion and philosophy introductory chapters concerning the concept of natural religion It holds that we can't engage in useful discussion about the present concept of religion without a knowledge of the philosophical history that has shaped that concept This is discussed with reference to the notion of natural religion to illustrate certain aspects of deism and its legacy Originally published in 1989      **Dialogues Concerning Natural Religion** David Hume, 1779      **Natural Religion** Joseph Shaw Bolton, 2013-07-18 Driven by the dissatisfaction and turmoil in religion at the time this book was originally published in 1923 the author sets out a belief that all people have an inborn religion and investigates what the future of this religion might be as it changes from age to age In the short chapters here the author reflects on the current trends in theology at the time and the history of Christianity This is an early critique of formalised religion and a simple advocacy of natural religion which is a glimpse into the basic philosophy of the early twentieth century

**Natural Religion and Christian Theology** Charles Earle Raven, 1953      Natural religion, by the author of 'Ecce homo'. Sir John Robert Seeley, 1882      **Natural Religion. From the "Apologie Des Christenthums"** Franz Hettinger, 1890      **Of the Principles and Duties of Natural Religion** Wilkins, 1704      **Of the Principles and Duties of Natural Religion** John Wilkins, 1722      *The Natural History of Religion* David Hume, 1957 Originally published in London in 1956 by A and C Black Ltd      Natural Religion and Christian Theology Albert Victor Murray, 1956      **Of the Principles and Duties of Natural Religion** John Wilkins, 1710      **Natural Religion** Sir John Robert Seeley, 1882      Natural Religion Frederick Turner, 2017 There is widespread belief that the world's religions contradict each other It follows that if one religion is true the others must be false an assumption that implies and may actually create religious strife In *Natural Religion* acclaimed poet critic and essayist Frederick Turner sets out to show that the natural world offers grounds for stating that all religions are in some respect true Through the ages various ways have been proposed to resolve religious differences Some argue for the destruction of all religions but one's own Others substitute an abstract principle for the real ritual and moral practice of religion Still others doubt all religious truth and consequently all truth Others accept a kind of pluralistic relativism This book explores syncretism whereby all religions are seen as grasping the same strange and complex reality but by very different means and handles The idea that all religions are true raises a supervening question if so what must the real physical universe be like Turner approaches these questions in terms of scientific inquiry There is not enough room in space itself to fit in all theologies but there may be enough room in time if new scientific descriptions of time's nature are to be believed Turner argues that in the time models of contemporary cosmological and evolutionary science all times may be connected and time may be infinitely branched and causally looped so that both forward in time and backward in time factors may be in operation in the same event Thus the fundamental substance of the universe may be information

rather than matter or energy The universe is more like a vast living organism than a vast machine Turner argues that all existing religions can be shown to fit into this model which in turn points to deeper implications of religious doctrines languages and practices There would be plenty of room in such a view of time for a tree of different yet linked religious w

Dialogues Concerning Natural Religion is a philosophical work written by the Scottish philosopher David Hume Through dialogue three fictional characters named Demea Philo and Cleanthes debate the nature of God s existence While all three agree that a god exists they differ sharply in opinion on God s nature or attributes and how or if humankind can come to knowledge of a deity In the Dialogues Hume s characters debate a number of arguments for the existence of God and arguments whose proponents believe through which we may come to know the nature of God Such topics debated include the argument from design for which Hume uses a house and whether there is more suffering or good in the world Argument from evil
