Keyview Barkley "Red" Barkley,2008-06 This book is a book of some questions to ponder some answers to ponder some propositions some controversial materials It will inform some and possibly outrage some who have a different point of view about your world around us If you have a closed mind it may not be the book for you It is a book with a large background of Bible implications It suggests future events as well as the world situation around you now You will see things that are worth your notice and attention Unlike other more common literature it can be begun at nearly any page It is a volume not to promote one basic ideal but many You should find something pertaining to your own world within these pages something you would like to know or should know It is a book of the discovery of the over looked apparent Some thinking is required If you like to think it should be reading for pleasure You will discover you live in a world of many worlds One of the main ideas of this book is to stimulate one s own thinking facility the brain to more active participation in the world around us The future is better to the thinkers One is not likely to read this book in one setting because it is a thinking book a book to ponder You will see more if you walk so to speak rather than fly through this book as it says in the book Open your eyes and see the darkness close your eyes and see the light

Christ, the Spirit, and

Human Transformation in Gregory of Nyssa's in Canticum Canticorum Alexander L. Abecina, 2023-09-15 It is generally agreed that *virg* is Gregory of Nyssa's first written work composed sometime in the early 370s. Recent scholarly interest in the text has tended to focus upon Gregory's alleged ranking of different forms of married and celibate life in relation to fourth-century Christian asceticism. Rarely, however, has the overtly ascetical subject matter of the work been studied with regard to one of the most pressing doctrinal debates of the 370s and 380s, namely the dispute over the status of the Holy Spirit, a matter which the Cappadocian Fathers took up with great force against the Macedonians who denied the Spirit's essential unity with the Father and the Son. This chapter therefore investigates the role Gregory assigns to the Holy Spirit in the virgin's spiritual marriage or union with Christ. I will show that Gregory stresses throughout the work that such union with Christ is in fact impossible for the naturally weak and fallen virgin unless it is actualised by the life-giving power of the Holy Spirit who shares in the very attributes of purity, incorruptibility and virginity that are proper to the Father and the Son. This he expounds with direct reference to baptismal theology. Thus read in light of the debates with the Macedonians in the 370s and 380s, *virg* can be understood to prescribe a form of ascetical life which rests upon the characteristically anti-Macedonian conviction that the Spirit who is received at baptism unites humanity to the Son and the Father because the Spirit is himself essentially united to the Son and the Father. This analysis of pneumatology in *virg* is of central importance to my study of *hom* in *Cant*; both works portray humanity's union with Christ under the metaphor of marriage. That Gregory construes this nuptial union in thoroughly pneumatological and hence baptismal terms in his earliest work serves to attune my focus upon resonant pneumatological and baptismal themes that shed light on his exegesis of the Song of Songs in his final written work.

For students and scholars of Spinoza, history of philosophy, political philosophy and those concerned with theologico-political questions. The editor is affiliated with Loyola College in Maryland.
