Bahr,1999-06 The Navajo are the largest tribe of Indians in the United States and due in part to a fascination with their relative isolation have been analyzed in numerous documentaries In this timely supplement to the Navajo Bibliography Howard M Bahr engages in a unique postmodern approach to his bibliography of the Navajo culture by combining health related artistic economic religious social scientific and other literature on the Navajo into one study The bibliography skillfully downplays disciplinary boundaries by unifying literature that has previously only offered separate classification and access The more than 6 300 entries are selectively annotated and cover Navajo literature from 1970 to 1990 as well as newly discovered literature including Franciscans literature that was not included in the original Navajo Bibliography This bibliography is not only the most comprehensive bibliography to date in its coverage of more than two decades of new material but the only source that supplements the professional literature with local and cultural works An exhaustive resource that effectively doubles the expanse of Navajo literature surveyed and indexed Din Bibliography to the 1990s is an invaluable tool that both highlights the literature already available and expands such data to include coverage of genres that have been previously underrepresented Diné Peter Iverson,2002-08-28 This comprehensive narrative traces the history of the Navajos from their origins to the beginning of the twenty first century Based on extensive archival research traditional accounts interviews historic and contemporary photographs and firsthand observation it provides a detailed up to date portrait of the Din past and present that will be essential for scholars students and interested general readers both Navajo and non Navajo As Iverson points out Navajo identity is rooted in the land bordered by the four sacred mountains At the same time the Navajos have always incorporated new elements new peoples and new ways of doing things The author explains how the Din remember past promises recall past sacrifices and continue to build upon past achievements to construct and sustain North America s largest native community Provided is a concise and provocative analysis of Navajo origins and their relations with the Spanish with other Indian communities and with the first Anglo Americans in the Southwest Following an insightful
