## Navajo Taboos:

**Navajo Taboos** Ernest L. Bulow, 1982 Navajo Taboos is not some scholarly work by an anthropologist but an insider's look at a body of folk beliefs shared by many Navajos illuminating their cultural priorities. The taboos were collected by Navajo students for their own information and previously published in pamphlet form by the Navajo Tribe as the first volume in their Cultural Series of publications. The taboos have been organized and interpreted by Ernie Bulow who has spent his entire life around Navajos and other tribes of the Southwest as a teacher, writer, and Indian trader. The book is a respectful compilation of Navajo beliefs that set them apart from all other groups while at the same time illustrating the universal fears and concerns found in all cultures.

**Navajo Taboos** Ernie Bulow, 1991    Taboo, 2006    *Taboo*, 2006    **Taboo**, 2006

Handbook for Culturally Competent Care Eric A. Fenkl, Larry D. Purnell, 2024-10-22 The second edition of this incisive book based on the Purnell Model for Cultural Competence addresses the potentially challenging topic of culture in a forthright style. It is a valuable resource in today's team-based healthcare environment, preparing health professionals regardless of setting to conduct in-depth assessments of individuals and families from culturally specific population groups. This book will appeal to all healthcare workers in all fields and it is particularly suitable for nurses interacting with patients in very diverse settings. This book delves into 32 different cultures and areas of support common to all individuals and families that health professionals must recognize and consider. African American, American Indian, Brazilian, Cuban, Chinese, Korean, and Filipino, but also Arab, Hindu, or Haitian, as well as many European heritages are examined among others. Brand new chapters explore Greek, Italian, Jamaican, Thai, and Ukrainian heritages. For each culture, chapters detail communication styles, family roles, workforce issues, biocultural ecology, and high-risk health behaviors. Also discussed are nutrition, pregnancy, and child-bearing death rituals, spirituality, healthcare practices, and the perceptions of traditional, magico-religious, and biomedical healthcare providers. Culture's characteristics, such as age, generation, gender, religion, educational, marital, parental, socioeconomic, or even military status, but also political beliefs, physical characteristics, sexual orientation, or gender issues, determining the diversity of values, beliefs, and practices in an individual's cultural heritage, in order to help prevent stereotyping, are discussed. At the end of each chapter, readers are provided with specific instructions, guidelines, tips, intervention strategies, and approaches specific to a particular cultural population. Additionally, reflective exercises help the reader reinforce the concepts presented in each chapter. For this second edition, most of the chapters are authored by individuals who either identify with the culture being addressed in the chapter or have personal knowledge of the culture via life experiences.
