Jonathan Wiesen, 2010-11-22 When the Nazis came to power in 1933 they promised to build a vibrant consumer society But they faced a dilemma They recognized that consolidating support for the regime required providing Germans with the products they desired At the same time the Nazis worried about the degrading cultural effects of mass consumption and its association with Jewish interests This book examines how both the state and private companies sought to overcome this predicament Drawing on a wide range of sources advertisements exhibition programs films consumer research and marketing publications the book traces the ways National Socialists attempted to create their own distinctive world of buying and selling At the same time it shows how corporate leaders and everyday Germans navigated what S Jonathan Wiesen calls the Nazi marketplace A groundbreaking work that combines cultural intellectual and

Jaskot, 2002-01-04 This book re-evaluates the architectural history of Nazi Germany and looks at the development of the forced labour concentration camp system Through an analysis of such major Nazi building projects as the Nuremberg Party Rally Grounds and the rebuilding of Berlin Jaskot ties together the development of the German building economy state architectural goals and the rise of the SS as a political and economic force As a result *The Architecture of Oppression* contributes to our understanding of the conjunction of culture and politics in the Nazi period as well as the agency of architects and SS administrators in enabling this process **The Political Power of Economic Ideas** Peter A.
