Nazi Gold:

Nazi Gold George Carpozi, 1999 Drawing on scores of interviews previously unrevealed intelligence documents from many countries the U S State Department Report as well as archives of England Argentina France and Italy Carpozi makes public startling information about the dealings all these nations had with Nazi Germany and follows the trail of the valuables stolen from victims of the Holocaust

Nazi Gold Tom Bower, 2017-03-21 A compelling and carefully researched account of greed duplicity and an unholy partnership between Switzerland and the Third Reich The Washington Times In the third and fourth decades of the twentieth century the European continent fell nation by nation to Nazi Germany's invincible war machine But Switzerland remained neutral during World War II taking no side and bowing to no master For a long time after that was the accepted history but it was a lie Respected British investigative journalist Tom Bower reveals the shocking truth about how the government of Switzerland and the Swiss banking industry knowingly collaborated with the Reich during the darkest era in modern history With the knowledge and acquiescence of the Swiss government hundreds of millions of dollars stolen from Jewish Holocaust victims including gold teeth extracted from the mouths of those murdered were systematically hidden away in Swiss bank accounts But these crimes did not end with the defeat of Hitler For the next half century Swiss authorities engaged in a covert campaign of lies subterfuge and corruption to hide the wealth from its rightful owners concentration camp survivors and the families of the slain while freely dispensing the illegally obtained funds to fugitive Nazis Written by one of the finest investigative journalists in the English speaking world Nazi Gold is an explosive true account of state endorsed crimes and atrocities of former victims fighting courageously for their due in the face of prejudice hatred and indifference and of the dedicated US Treasury agents who worked tirelessly for decades to right an unconscionable wrong The Washington Times

U.S. and Allied Efforts To Recover and Restore Gold and Other Assets Stolen or Hidden by Germany During World War II William Z. Slany, Greg Bradsher, The Nazi Hydra in America Glen Yeadon, 2008 This book exposes how US plutocrats launched Hitler then recouped Nazi assets to lay the post war foundations of a modern police state Fascists won WWII because they ran both sides Lays bare the tenacious roots of US fascism from robber baron days to Reichstag fire to the WTC atrocity and Homeland Security with a blow by blow account of the fascist take over of America's media

Nazi Gold Douglas Botting, IAN SAYER, 2012-01-27 A riveting thriller style account of what happened to the Nazi gold hoard Guardian A major feat of detection a remarkable story Birmingham Post In 1945 as Allied bombers continued their final pounding of Berlin the panicking Nazis began moving the assets of the Reichsbank south for safekeeping Vast trainloads of gold and currency were evacuated from the doomed capital of Hitler's Thousand year Reich Nazi Gold is the real life story of the theft of that fabulous treasure worth some 2 500 000 000 at the time of the original investigation It is also the story of a mystery and attempted whitewash in an American scandal that pre dated Watergate by nearly 30 years Investigators were impeded at every step as they struggled to uncover the truth and were left fearing for

their lives The authors quest led them to a murky dangerous post war world of racketeering corruption and gang warfare Their brilliant reporting matching eyewitness testimony with declassified Top Secret documents from the US Archives lays bare this monumental crime in a narrative which throngs with SS desperadoes a red headed queen of crime and American military governors living like Kings Also revealed is the authors discovery of some of the missing treasure in the Bank of England Monetary Men Kenneth D. Alford,2025-06-06 A complete accountability of the financial treasures looted by the Nazis *Hitler's Gold* Arthur Smith,1989-10-16 Nazi Germany utilized every available resource to fight the Second World War and one significant weapon in Hitler s economic arsenal was gold gold looted from the central banks of those European countries which were occupied by the Nazi regime between 1939 and 1942 Calculated at pre 1939 prices the Germans gained access to about 625 million US in monetary gold only about half of which was recovered by American Forces in April 1945 from a mine in central Germany The Gold War did not end then however it just assumed a different shape Instead of fuelling Hitler s war effort the recovered gold soon became a pawn in the Cold War struggle between the United States and the Soviet Union and has remained a controversial issue in international politics for years one not completely resolved to this day Although this is an important aspect of the Second World War and its aftermath it has been largely neglected in historical research because of the lack of adequate source materials The author succeeded in gaining access to hitherto unavailable but crucial records from archives in West Germany Britain and the United States and is thus in a position to piece together for the first time the story of the Nazi gold loot and the long complicated restitution of part of this gold by the Western Allies Hitler s Gold represents an essential contribution to the economic history of the Second World War

Holocaust Gold Raul Teitelbaum,Moshe Sanbar,2001 Amid the severe devastation wrought by the Second World War the economic implications of the Nazi regime is a subject that has come to light only in recent years Holocaust Gold by Raul Teitelbaum and Moshe Sanbar is an important and revealing contribution to this growing body of historical research Tracing the path of Nazi looting and plunder Sanbar and Teitelbaum identify and elaborate the complexities of this sensitive issue and the difficulties in seeking justice half a century later The lack of German documentation of the gold looted from individuals combined with a host of contributing factors that include politics and the role of the media ensures that the issue of Nazi gold be so difficult and painful to reconcile The authors explore the role of neutral Switzerland and the systematic effort by Swiss leaders to blur the tracks of the gold that reached the vaults of the Nazi Reichsbank A detailed chapter features an expose of the little known Vreneli affair the minting of Vreneli gold coins on an unprecedented scale and the sale of these coins to the general public in order to shrink the enormous gold stocks Switzerland amassed during the war Holocaust Gold also uncovers several fascinating and telling pieces of information including the story of Himmler s mistress who was assured a luxurious lifestyle after the war and how SS officials used gold extracted from the mouths of their victims for their own dental work This book is comprehensive and impressive providing a historical and economic framework in

which to contemplate the magnitude of the Nazi looting and the subsequent cover ups The authors condemn the Swiss authorities convincingly contending that the 1 25 billion that the major Swiss commercial banks pledged to the victims of the Holocaust totally disregards the active role the Swiss Central Bank and Swiss government played in this devastating affair Holocaust Gold is both courageous and insightful exploring a shameful economic history and policy to which the world has only recently awoken Amazon com

Hitler's Silent Partners Isabel Vincent, 2011-03-04 Award winning journalist Isabel Vincent unravels the labyrinthine story behind the headlines by taking us through the life of survivor Ren e Appel who found refuge in Canada With her we come to understand what it means to wait for justice how on the eve of war desperate men and women entrusted their life savings to Swiss banks how Nazis laundered gold looted from Jewish families how the demands of international business Swiss bank secrecy and greed kept the truth hidden for over half a century and still prevent restitution from being made Hitler s Silent Partners is a rigorous and often heartbreaking look at statistics seldom given a human face

Hitler's Gold Norman Ridley, 2023-11-30 The whereabouts and disposal of the Nazi s remaining stolen gold has led to numerous investigations and countless conspiracy theories Norman Ridley uncovers many of the mysteries surrounding this continuing search for the missing millions War is a costly business and in 1939 Germany was almost broke with its economy overheating and heading for runaway inflation Hitler needed hard foreign currency to pay for his war machine and the only way he could get this was by selling gold that he looted from the national banks of Austria Czechoslovakia and all the countries that were occupied after September 1939 Another source of gold was the theft of personal gold especially from the Jews most grotesquely the haul of dental gold which came out of the concentration camps No neutral country would accept Reichsmarks so the gold had to be laundered through Swiss banks The story of Swiss complicity in German war crimes is still a subject of controversy and lawsuits There are also questions about the parts played by other countries particularly Portugal in laundering stolen gold for the Nazis The Vatican s dealings with Hitler have often been seen as ambiguous and this book investigates the Holy See s role in helping ship Nazi gold to South America and how

that gold might have been used to re create the German Reich After the war a commission was set up to recover as much gold as possible and restore it to those from whom it was stolen This of course was beset by huge problems especially with regards to gold that was looted from Holocaust victims Enormous quantities of gold and other treasures were hidden in a mine at Merkers in Thuringia which was found by the US 3rd Army in 1945 but much gold remains unaccounted for and attempts are still ongoing to uncover supposed hidden caches the most recent in Poland where four tons are believed to have been found by the Silesian Bridge Foundation in May of 2022 The whereabouts and disposal of the remaining stolen gold has led to numerous investigations and countless conspiracy theories In *Hitler's Gold* the author analyzes these and uncovers many of the mysteries surrounding this continuing search for the missing millions

Prologue, 1998

Nazi Gold Ian Sayer, Douglas Botting, 1984 Chronicles the fate of the wealth of the Third Reich buried in the Bavarian mountains near the end of the war and looted by former Nazis and American soldiers in the chaos of defeat

Portugal and the Nazi Gold Antonio Louãsa, Ansgar Schãfer, 2011-07-04 The London Conference on Nazi Gold held in December 1997 marked one of the high points to date in a triangular of dispute raging between representatives of Jewish organizations backed by world public opinion the Swiss banking imperium and the banking industry in the United States For the American bankers the furor over the wartime services rendered by their Swiss rivals comes at an opportune moment 1 Yet the controversy about the fate of the pilfered assets of persecuted Jews tormented and murdered by the Nazis is no longer a matter confined to the Swiss state Business with Nazi Germany played an important part in the economies of all non occupied European countries Without Swedish ore Rumanian oil Spanish manganese Turkish chromium and tungsten from Portugal the war machine of the Third Reich would have ground to a halt well before 1945 Nevertheless the inquiry must go beyond merely trying to establish who delivered what and when The Swiss example points up the real pivot in this traffic namely the question of financing How and through what channels did Nazi Germany pay for the influx of goods imported from the neutrals Portugal under the iron rule of dictator Antonio de Oliveira Salazar can serve as a paradigmatic example of the scant role ethical considerations played in policies pursued by the supposedly neutral nations toward Nazi Germany It

also vividly exemplifies that in being driven by greed for profit how few compunctions there were to prohibit consorting with the Nazi regime and receiving its looted treasures In this connection it is baffling that some historical literature actually portrays Portugal's role in World War II in a positive light Evidently this is due chiefly to the country's importance as a haven and transit point for many who were fleeing the Nazis including Jews On the basis of new disclosures since mid 1996 however it is becoming ever clearer just how heavily implicated the Portuguese state was in dealings concerning gold seized by the Nazis Thus it is time to set the record straight and rectify the previous far too rosy image of the Portuguese role Although the Banco de Portugal the Portuguese central bank has not made the task easy for historians trying to get at the truth one salient fact has already been well established among those countries that received shipments of looted gold from the Third Reich Portugal ranked second only to Switzerland A look at the figures is sufficient corroboration On January 1 1939 total Portuguese gold reserves amounted to a mere 63.4 tons over the course of the war these swelled by nearly 600 percent reaching an imposing 356.5 tons as of October 31 1945 During this period Portugal received at least 123.8 tons net in gold directly or indirectly from the Reichsbank valued at the time at 139.9 million The Bombing of Auschwitz Michael J. Neufeld, Michael Berenbaum, 2003 Could the Allies have prevented the deaths of tens of thousands of Holocaust victims Inspired by a conference held to mark the opening of the US Holocaust Memorial Museum this book brings together the key contributions to this debate *Nazi Gold, Finding Rommel's Treasure* Ron Boubil, 2015-02-05 This book is an historical account of what's become known as Rommel's treasure By the time you finish reading it you will be able to distinguish between fact and fiction in the ongoing saga of the missing WWII gold from North Africa It contains many untold pieces of the puzzle for anyone searching for the treasure and for those who want to know more about the people behind the story
