Minimal Access Surgical Oncology:

Minimally Invasive Surgical Oncology Ronald Matteotti, Stanley W. Ashley, 2011-06-15 Minimally Invasive Surgical Oncology is aimed at the minimal invasive surgeon as well as at the general surgeon and surgical trainee who wish to explore this field. It gives a state of the art overview and perspectives for future developments and research as well. The book serves as an operative guide for a new generation of surgeons and offers the extraordinary feature of being a text book, an operative atlas and a quick reference guide as well. The reader is provided with a tool in hand which synthesizes the latest knowledge in traditional therapies like chemotherapies and gives a comprehensive overview how to proceed in treating a cancer patient using minimal access techniques. *Minimal Access Surgery in Oncology* James G. Greene, B. Todd Heniford, 2010-09-11 As minimal access approaches to cancer diagnosis, staging and therapy become more widely used, it is vital for general surgeons along with laparoscopists, surgical oncologists and medical oncologists to stay up to date. The editors, a team consisting of a renowned surgical oncologist and a laparoscopic specialist, aim to provide a resource for the practicing general surgeon using basic minimally invasive techniques. The book discusses diagnosis including biopsy with microinstrumentation, staging and palliative and curative resection. Specific tumor sites are addressed including esophagus, stomach, spleen, small bowel, pancreato-biliary, hepatic resection and colorectal resection. Minimally invasive approaches to the thoracic and retroperitoneal areas are included. The book provides a thorough overview of basic cancer biology, instrumentation and ultrasound. Additionally, Greene and Heniford explore controversial issues such as port site recurrence and the effect of pneumoperitoneum on the spread of cancer cells in the abdomen. Many photographs and line drawings, including 16 in full color, illustrate the principles discussed in the text. A must have for every practicing general surgeon.
