## **Minorities Migrants And Crime Diversity And Similarity Across Europe And The United States:**

**Minorities, Migrants, and Crime** Ineke Haen Marshall, 1997-07-22 This ideal resource is the result of an enthusiastic collaboration of authors from both Europe and the United States. Highlighting diversities and similarities found in law enforcement priorities, punishment philosophy and practices and media coverage, the volume also includes an enlightening discourse on political, scholarly and public issues critical to this area of research. **Prisons, State and Violence** Maria João Guia, Sílvia Gomes, 2019-10-16 This book provides a unique analysis of prisons and the violence at work inside them. It not only addresses aspects such as racial discrimination especially in US prisons but also gender differences, specific criminal groups operating within prisons, the reintegration processes and its failures. Combining works by various authors, it presents diverse perspectives on prison violence in countries ranging from the USA to Australia, crossing European countries such as Portugal and Spain among others but also specific aspects such as prohibitions on phone calls, the economic crisis and the current challenges of mass incarceration. As such, it offers a broad overview of several problems relevant to all scholars interested in deepening their understanding of violence in prisons. **Race, Ethnicity, Crime, and Justice** Shaun L. Gabbidon, 2010 This book provides case studies from countries around the world regarding the nature and scope of concerns related to race, ethnicity, crime and justice. The text centres primarily on English speaking countries where they have encountered problems related to race, ethnicity, crime and justice. The book is designed to be used as either a main or supplementary text for courses focusing on race and crime, minorities and crime, and diversity in criminal justice. Additionally, it can also be used in sociology and ethnic studies courses that focus on race and crime. **The Criminal Victimization of Immigrants** William F. McDonald, 2018-02-09 This book offers a comprehensive examination of the many forms of victimization of immigrants, including trafficking in persons for sexual exploitation and forced labor, assaulting, robbing and raping, refusing to pay wages, renting illegal living space that violates health codes and domestic abuse both in general and in particular of mail order brides. McDonald examines a broad range of quantitative and qualitative data from historical and international sources including the USA, Canada, Mexico, Britain, Australia, France, Germany, Italy, Sweden, the Netherlands, Switzerland, Austria, Poland and Spain. He writes with a view to correcting myths about the relationship between immigrants and crime, noting that immigrants are more likely to become victims than offenders. The book outlines the multiple forms and contexts in which immigrants are victimized, exploited and harmed. Reviewing micro and macro level victimological and sociological theories as they apply to patterns and forms of immigrants' victimization, this study ultimately seeks to understand reasons for which immigrants are victimized by their own kind and by persons outside their community.

**Routledge Handbook of International Criminology** Cindy J. Smith, Sheldon X. Zhang, Rosemary Barberet, 2011-05-03 The Routledge Handbook of International Criminology brings together the latest thinking and findings from a diverse group of both senior and promising young scholars from around the globe. This collaborative project articulates a new way of thinking.

about criminology that extends existing perspectives in understanding crime and social control across borders jurisdictions and cultures and facilitates the development of an overarching framework that is truly international. The book is divided into three parts in which three distinct yet overlapping types of crime are analyzed: international crime, transnational crime and national crime. Each of these perspectives is then articulated through a number of chapters which cover theory and methods, international and transnational crime analyses and case studies of criminology and criminal justice in relevant nations. In addition, questions placed at the end of each chapter encourage greater reflection on the issues raised and will encourage young scholars to move the field of inquiry forward. This handbook is an excellent reference tool for undergraduate and graduate students with particular interests in research methods, international criminology and making comparisons across countries.

**Immigration and the Changing Social Fabric of American Cities** John MacDonald, Robert J.

Sampson, 2012-05 This volume of *The ANNALS* brings together a leading set of scholars to present new research on trends in the spatial forms of immigration that are transforming the American landscape: the effects of the world in a city. With a distinct analytic focus the volume takes a comparative approach examining recent immigration trends, disaggregating by ethnicity or immigrant type wherever possible focusing on core features of the nation's social fabric e.g. violence, legitimacy of social institutions, governance, economic well-being and empirically going beyond the big cities of traditional concern to a host of smaller cities and towns reaching into far-flung pockets of the country. The lineup includes papers on both familiar cities such as New York, Los Angeles, Chicago and Miami as well as places as different as San Antonio, Nashville, Boston, Dublin, Hazleton, Pennsylvania and St. James, Minnesota. While the places studied and features of their social fabric may differ, the social processes underlying the spatial forms of immigration are shown to be largely the same. This volume will be of interest to social scientists from a broad range of disciplines who engage in research and teaching on issues related to immigration policy makers and individuals working on immigration policy research.
