Policies and the Survival of Regional Languages in France and Britain A. Judge, 2007-02-07 It was traditionally assumed that a single official language was necessary for the wellbeing of the state particularly in France and Britain This assumption is now questioned and regional languages are making in some cases an impressive comeback This book analyses a range of languages development decline and efforts at regeneration **Lesser-Known Languages of South Asia** Anju

Saxena, Lars Borin, 2008-08-22 The increasing globalization and centralization in the world is threatening the existence of a large number of smaller languages In South Asia some locally dominant languages e g Hindi Urdu Nepali are gaining ground beside English at the expense of the lesser known languages Despite a long history of stable multilingualism language death is not uncommon in the South Asian context We do not know how the language situation in South Asia will be affected by modern information and communication technologies Will cultural and linguistic diversity be strengthened or weakened as they become increasingly prevalent in all walks of life This volume brings together areas of research that so far do not interact to any significant extent traditional South Asian descriptive linguistics and sociolinguistics documentary linguistics issues of intellectual and cultural property and fieldwork ethics and language technology Researchers working in the areas of documentary linguistics and language technology have become aware of each other in the last few years and of how work in the other area could be potentially useful in furthering their own aims Similarly the insights of documentary linguistics are making their way into descriptive linguistics and sociolinguistics However the potential for synergy among these areas of research is almost limitless This volume provides the reader not so much with a do it yourself recipe for applying modern technology to the problem of language shift in South Asia today but rather with some basic knowledge about the problems involved and some directions from which solutions could be forthcoming a toolbox rather than a blueprint for helping to shape the linguistic future of South Asia **Europe and the Politics of Language** Máiréad Nic Craith, 2005-12-14 Do
