Minority Languages In Europe Frameworks Status Prospects:

Minority Languages in Europe G. Hogan-Brun,S. Wolff,2003-11-11 Minority languages in Europe as part of a common cultural heritage need protection The contributions to this book reflect urgent stimulating and productive debates among researchers in sociolinguistics linguistic anthropology politics and sociology and among language activists and policy makers At the heart of the debate are the effectiveness of the existing political and legal frameworks aimed at protecting linguistic and cultural diversity and prospects for the survival of minority languages in the process of European integration

Divided Nations and European Integration Tristan James Mabry,John McGarry,Margaret Moore,Brendan O'Leary,2013-06-27 For ethnic minorities in Europe separated by state borders such as Basques in France and Spain or Hungarians who reside in Slovakia and Romania the European Union has offered the hope of reconnection or at least of rendering the divisions less obstructive Conationalists on different sides of European borders may look forward to increased political engagement including new norms to support the sharing of sovereignty enhanced international cooperation more porous borders and invigorated protections for minority rights Under the pan European umbrella it has been claimed that those belonging to divided nations would no longer have to depend solely on the goodwill of the governments of their states to have their collective rights respected Yet for many divided nations the promise of the European Union and other pan European institutions remains unfulfilled Divided Nations and European Integration examines the impact of the expansion of European institutions and the ways the EU acts as a confederal association of member states rather than a fully multinational federation of peoples A wide range of detailed case studies consider national communities long within the borders of the European Union such as the Irish and Basques communities that have more recently joined such as the Croats and Hungarians and communities that are not yet members but are on its borders or in its near abroad such as the Albanians Serbs and Kurds This authoritative volume provides cautionary but valuable insights to students of European institutions nations and nationalism regional integration conflict resolution and minority rights Contributors Tozun Bahcheli Zoe Bray Alexandra Channer Zsuzsa Cserg Marsaili Fraser James M Goldgeier Michael Keating Tristan James Mabry John McGarry Margaret Moore Sid Noel Brendan O Leary David Romano Etain Tannam Stefan Wolff

Europe and the Politics of Language Máiréad Nic Craith,2005-12-14 Do political boundaries impact on concepts of language How significant is language for citizenship in contemporary Europe Can disputed languages acquire full status Should non European languages receive recognition from the EU These are among the many questions explored in this new study of official regional and disputed languages in an ever changing European context Broad policy issues and the performance of the range of instruments of policy at local national and European levels are illustrated with reference to case studies across Europe

European Integration and the Nationalities Question John McGarry,Michael Keating,2006-09-27 A highly topical examination of the effect of European integration on relations between states and minority nations This new collection brings

together the leading specialists in the field and covers a wide range of cases from Northern Ireland in the West to Estonia and Latvia in the East and Cyprus in the South East The contributors assess how European integration has affected the preparedness of states to accommodate minorities across a range of fundamental criteria including enhanced rights protection autonomy the provision of a voice for minorities in the European and international arena and the promotion of cross border cooperation among communities dissected by state frontiers The comprehensive chapters stress the importance of the nationality question and the fact that contrary to the hopes and beliefs of many on the left and right it is not going to go away Beginning with an introductory essay that summarizes the impact of European integration on the nationalities question this accessible book will be of strong interest to scholars and researchers of politics nationalism ethnic conflict and European studies

Cross-disciplinary Views on Migration Diversity Trinidad L. Vicente, María Luisa Setién, 2008

This book on International Migrations aims to show the diversity of topics and problematics contained within immigration revealing certain situations that make the migratory phenomenon more comprehensible The text collects the work experience of some members of the Research Unit on International Migrations of the University of Deusto

Talk of the Nation Zsuzsa Csergo, 2018-07-05 How can democratization coupled with transnational integration resolve conflicts over cultural difference in places that are marked by legacies of nationalist competition This book explores that question through a comparative study of contestations over language use in the heart of the post Communist region Zsuzsa Csergo notes that newly independent governments looked to rejoin the West in particular the European Union while at the same time asserting control over the institutions they considered key to the reproduction of national cultures These national projects resulted in renewed salience for minority language rights and a complicated politics triggering EU concerns about the treatment of regional cultural minorities Csergo's field research in Romania Hungary and Slovakia leads her to make a bold claim about the primacy of domestic politics in the construction of democratic solutions to the conundrum of nation building and minority rights *Talk of the Nation* breaks new ground by focusing on both majority and minority political elites and parties in interethnic relations Csergo challenges arguments about the overwhelming importance of international influence Her book demonstrates that the role of domestic political actors in interethnic reconciliation is not merely that of compliance with international requirements or effectiveness in responding to external pressure they are largely guided by the internal democratic process
