Mirror Of Modernity Invented Tradition

Hiroko Tomida, Gordon Daniels

Mirror Of Modernity Invented Tradition:

Mirror of Modernity Stephen Vlastos, 1998-05 This collection of essays challenges the notion that Japan's present cultural identity is the simple legacy of its pre-modern and insular past. Scholars examine age-old Japanese cultural practices and show these to be largely creations of the modern era.

Making Japanese Heritage Christoph Brumann, Rupert A. Cox, 2009-12-16 This book examines the making of heritage in contemporary Japan, investigating the ways in which particular objects, practices, and institutions come to be seen as forms of heritage which are ascribed public recognition and political significance.

Inventing the Way of the Samurai Oleg Benesch, 2014 *Inventing the Way of the Samurai* examines the development of the way of the samurai bushido, which is popularly viewed as a defining element of the Japanese national character and even the soul of Japan. Rather than a continuation of ancient traditions, however, bushido developed from a search for identity during Japan's modernization in the late nineteenth century. The former samurai class were widely viewed as a relic of a bygone age in the 1880s, and the first significant discussions of bushido at the end of the decade were strongly influenced by contemporary European ideals of gentlemen and chivalry. At the same time, Japanese thinkers increasingly looked to their own traditions in search of sources of national identity, and this process accelerated as national confidence grew with military victories over China and Russia. *Inventing the Way of the Samurai* considers the people, events, and writings that drove the rapid growth of bushido, which came to emphasize martial virtues and absolute loyalty to the emperor. In the early twentieth century, bushido became a core subject in civilian and military education and was a key ideological pillar supporting the imperial state until its collapse in 1945. The close identification of bushido with Japanese militarism meant that it was rejected immediately after the war, but different interpretations of bushido were soon revived by both Japanese and foreign commentators seeking to explain Japan's past, present, and future. This volume further explores the factors behind the resurgence of bushido, which has proven resilient through 130 years of dramatic social, political, and cultural change.

Sport, Memory and Nationhood in Japan Andreas Niehaus, Christian Tagsold, 2013-09-13 This book clarifies and verifies the role sport has as an alternative marker in understanding and mapping memory in Japan by applying the concept of lieux de mémoire (realms of memory) to sport in Japan. Japanese history and national construction have not been short of sports landmarks since the end of the nineteenth century. Western-style sports were introduced into Japan in order to modernize the country and develop a culture of consciousness about bodies resembling that of the Western world. Japan's modernization has been a process of embracing Western thought and culture while at the same time attempting to establish what distinguishes Japan from the West. In this context, sports functioned as sites of contested identities and memories. The Olympics, baseball, and soccer have produced memories in Japan, but so too have martial arts, which by their very name signify an attempt to create traditions beyond Western sports. Because modern sports form bodies of modern citizens and at the same time offer countless opportunities for competition with other nations, they provide an excellent ground for testing and

contesting national identifications By revealing some of the key realms of memory in the Japanese field of sports this book shows how memories and counter memories of sport moments places and heroes constitute an inventory for identity This book was originally published as a special issue of Sport in Society **Prophet Motive** Nancy K. Stalker,2007-10-31 From the 1910s to the mid 1930s the flamboyant and gifted spiritualist Deguchi Onisabur 1871 1948 transformed his mother in law s small rural religious following into a massive movement eclectic in content and international in scope Through a potent blend of traditional folk beliefs and practices like divination exorcism and millenarianism an ambitious political agenda and skillful use of new forms of visual and mass media he attracted millions to Oomoto his Shintoist new religion Despite its condemnation as a heterodox sect by state authorities and the mainstream media Oomoto quickly became the fastest growing religion in Japan of the time In telling the story of Onisabur and Oomoto Nancy Stalker not only gives us the first full account in English of the rise of a heterodox movement in imperial Japan but also provides new perspectives on the importance of charismatic entrepreneurship in the success of new religions around the world She makes the case that these religions often respond to global developments and tensions imperialism urbanization consumerism the diffusion of mass media in similar ways They require entrepreneurial marketing and management skills alongside their spiritual authority if their groups are to survive encroachments by the state and achieve national international stature Their drive to realize and extend their religious view of the world ideally stems from a prophet rather than profit motive but their activity nevertheless relies on success in the modern capitalist commercial world Unlike many studies of Japanese religion during this period Prophet Motive works to dispel the notion that prewar Shinto was monolithically supportive of state initiatives and ideology Legal Innovations in Asia John O. Haley,Toshiko Takenaka,2014-10-31 Expert scholars from around the world offer a history of law in the region while also providing a wider context for present day Asian law The contributors share insightful perspectives on comparative law the role of courts legal transplants intelle **Trust and Discourse** Katja Pelsmaekers,Geert Jacobs,Craig Rollo,2014-07-15 Trust and Discourse Organizational perspectives offers a timely collection of new articles on the relationship between discursive practices in organizational or institutional contexts and the psychological moral category of trust As globalization the drive for efficiency and accountability and increased time pressure lead groups and individuals to rethink the way they communicate it is becoming more and more important to investigate how these streamlined and impersonal forms of communication affect issues of responsibility authenticity and ultimately trust The book deals with a variety of organizational settings ranging from in hospital bedside teaching encounters and government communication following a nuclear accident to job interviews and foreign news reporting This comprehensive study of an emerging new field will provide essential reading for linguists discourse analysts communication scholars and other social scientists interested in a range of perspectives on oral written and digital language use in society including interactional sociolinguistics Critical Discourse Analysis ethnography multimodality and organizational studies **Drumming Between Tradition and**

Modernity Shawn Morgan Bender, 2003 **Osaka City University Economic Review** ,1999 **The Theatrics of Revolution** Liang Luo, 2006 日本の伝統的住居と集落の形成と変遷 ,2008 *Traditional Dwellings and Settlements Working Paper Series* ,2012 Japan and Its Worlds: Marius B. Jansen and the Internationalization of Japanese Studies Martin Collcutt, 2007
