Handbook of the Sociology of Gender Janet Saltzman Chafetz,2006-11-22

During the past three decades feminist scholars have successfully demonstrated the ubiquity and omnirelevance of gender as a sociocultural construction in virtually all human collectivities past and present Intrapsychic interactional and collective social processes are gendered as are micro meso and macro social structures Gender shapes and is shaped in all arenas of social life from the most mundane practices of everyday life to those of the most powerful corporate actors Contemporary understandings of gender emanate from a large community of primarily feminist scholars that spans the gamut of learned disciplines and also includes non academic activist thinkers However while in incorporating some cross disciplinary material this volume focuses specifically on socio logical theories and research concerning gender which are discussed across the full array of social processes structures and institutions As editor I have explicitly tried to shape the contributions to this volume along several lines that reflect my long standing views about sociology in general and gender sociology in particular First I asked authors to include cross national and historical material as much as possible This request reflects my belief that understanding and evaluating the here and now and working realistically for a better future can only be accomplished from a comparative perspective Too often American sociology has been both tempero and ethnocentric Second I have asked authors to be sensitive to within gender differences along class racial ethnic sexual preference and age cohort lines

Concepts of Normality Wendy Lawson, 2008-07-15 Lawson outlines the theory behind the thinking and beliefs of Western society that have led to the building of a culture that fails to be inclusive She describes what a wider concept of normal means and how to

Human Adjustment Janet A. Simons, Seth C. Kalichman, John W. Santrock, 1994 The authors hope you find this book to be special in its approach to adjustment and well being. You will discover some underlying philosophies in their discussion of adjustment. They believe human beings have the capacity to change to adapt and to effectively cope with stressful circumstances in their lives. They believe that knowledge, understanding, awareness, and insight are significant factors in adjustment. They believe that adjustment takes effort, work, monitoring, and persistence. Culture, ethnicity, and gender are important contexts of adjustment. Pref. The Mismeasure of Women Carol Tavris, 1992 Social psychologist Tavris discusses the widespread but invisible custom pervasive in the social sciences, medicine, law, and history of treating men as the normal standard, women as abnormal. Tavris expands our vision of normalcy by illuminating the similarities between women and men, showing that the real differences lie not in gender but in power, resources, and life experiences. **AWV Bulletin**, 1999

The Exceptional Woman Mary D. Sheriff, 1997-10-24 Elisabeth Vigee Lebrun 1755-1842 was an enormously successful painter, a favorite portraitist of Marie Antoinette and one of the few women accepted into the Royal Academy of Painting and Sculpture. In her role as an artist, she was simultaneously flattered as a charming woman and vilified as monstrously unfeminine. In *The Exceptional Woman*, Mary D. Sheriff uses Vigee Lebrun's career to explore the contradictory position of woman artist in the moral, philosophical, professional, and medical debates about women in eighteenth century France. Central to Sheriff's analysis is one key question: given the cultural norms and social attitudes that regulated a woman's activities, how could Vigee Lebrun conceive of herself as an artist and indeed become a successful one in old regime France? Paying particular attention to painted and textual self portraits, Sheriff shows how Vigee Lebrun's images and memoirs undermined the assumptions about woman and the strictures imposed on women. Engaging ancien regime philosophy as well as modern feminism, psychoanalysis, literary theory, and art criticism, Sheriff's interpretations of Vigee Lebrun's paintings challenge us to rethink the work of this controversial woman artist. **Adolescence** John W.
