

A detailed miniature dollhouse interior. In the foreground, a dark wood dining table is set with a green bottle, a glass, and a striped cloth. Two wooden chairs with a red and yellow patterned seat cushion are tucked under the table. In the background, a white stove with a tall chimney pipe stands next to a window with a plaid curtain. A small round table with a white top is also visible. The scene is lit with warm, indoor lighting.

Tulipomania Mike Dash,2001-01-30 A vivid narration of the history of the tulip from its origins on the barren windswept steppes of central Asia to its place of honor in the lush imperial gardens of Constantinople to its starring moment as the most coveted and beautiful commodity in Europe In the 1630s visitors to the prosperous trading cities of the Netherlands couldn t help but notice that thousands of normally sober hardworking Dutch citizens were caught up in an extraordinary frenzy of buying and selling The object of this unprecedented speculation was the tulip a delicate and exotic Eastern import that had bewitched horticulturists noblemen and tavern owners alike For almost a year rare bulbs changed hands for incredible and ever increasing sums until single flowers were being sold for more than the cost of a house Historians would come to call it tulipomania It was the first futures market in history and like so many of the ones that would follow it crashed spectacularly plunging speculators and investors into economic ruin and despair This colorful cast of characters includes Turkish sultans Yugoslav soldiers French botanists and Dutch tavern keepers all centuries apart historically and worlds apart culturally but with one thing in common tulipomania *A Counsel of Perfection* Lucas Malet,1888 **America in the Twentieth Century** Marshall Cavendish Corporation,2002-10 A thirteen volume set that presents an overview of all aspects of twentieth century America and two volumes of primary sources **All-pets** ,1936 *Murray's Magazine* ,1888 *A Theory of the Tache in Nineteenth-Century Painting* ?stein Sj?ad,2017-07-05 Without question the tache blot patch stain is a central and recurring motif in nineteenth century modernist painting Manet s and the Impressionists rejection of academic finish produced a surface where the strokes of paint were presented directly as patches or blots then indirectly as legible signs C nne Seurat and Signac painted exclusively with patches or dots Through a series of close readings this book looks at the tache as one of the most important features in nineteenth century modernism The tache is a potential meeting point between text and image and a pure trace of the artist s body Even though each manifestation of tacheism generates its own specific cultural effects this book represents the first time a scholar has looked at tacheism as a hidden continuum within modern art With a methodological framework drawn from the semiotics of text and image the author introduces a much needed fine tuning to the classic terms index symbol and icon The concept of the tache as a crossing of sign types enables finer
