Minimum Wages In Central And Eastern Europe From Protection To Destitution:

Minimum Wages in Central and Eastern Europe Guy Standing, Daniel Vaughan-Whitehead, 1995 The ILO's Central and Eastern European Team has conducted a series of studies concerning the role of minimum wages in the countries of this rapidly transforming region in particular looking at ways in which this role should be revised Based on this research *Minimum Wages in Central and Eastern Europe* examines the most crucial issues in Bulgaria the Czech Republic Hungary Moldavia Poland Romania and Russia and compares their systems with those of western industrialized economies

Minimum Wages in Central and Eastern Europe Guy Standing, Daniel Vaughan-Whitehead, 1995-01-06 The ILO's Central and Eastern European Team has conducted a series of studies concerning the role of minimum wages in the countries of this rapidly transforming region in particular looking at ways in which this role should be revised Based on this research *Minimum Wages in Central and Eastern Europe* examines the most crucial issues in Bulgaria the Czech Republic Hungary Moldavia Poland Romania and Russia and compares their systems with those of western industrialized economies Labor Market Regulations in Low-, Middle- and High-Income Countries Mr. Martin Schindler, Ms. Mariya Aleksynska, 2011-07-01 This paper documents a new database of labor market regulations during 1980-2005 in 91 countries including low middle and high income countries and contains information on unemployment insurance systems minimum wage regulations and employment protection legislation In this paper we provide details regarding the data methodology and sources Descriptive statistics indicate that there exists substantial heterogeneity in labor market institutions across regions and income groupings and that much of the sample variation is driven by institutional changes over time in low and middle income countries All indicators are at an annual frequency allowing for the dating of major changes in regulation and are based on data from a variety of sources including the ILO OECD and national agencies Hungary: Towards a Market Economy László Halpern, Charles Wyplosz, 1998-09-17 A comprehensive assessment of the Hungarian economy first published in 1998

The Politics of Labor in a Global Age Christopher Candland, Rudra Sil, 2001 This volume features essays on labour relations at national local and workplace levels as economic and political actors cope with the similar challenges associated with economic adjustment measures and the impact of globalization Small Transformations János Mátyás Kovács, 2003 East Central Europe is about to bring its welfare reforms to the European Union Nevertheless in the course of the Accession one could hardly fix the European standards of social policy or examine to what degree the newcomers may have approached them Evidently there has always been a variety of welfare regimes in the EU Moreover today's experts in post communist countries do not find stable policies and institutional arrangements in the West but rather another reform process the domestication of the classical welfare states True the general trends are not dissimilar partial retrenchment decentralization marketisation and privatisation of public welfare services as well as an upsurge of the voluntary sector are the main characteristic features of regulating welfare on both sides of the former Iron Curtain These issues are addressed by the

contributors of this volume leading representatives of their professions in an unprecedented way In avoiding the convenient cliché Reforming Wage Policy in Central and Eastern Europe Daniel Vaughan-Whitehead,1995 *Welfare States in Transition* Gøsta Esping-Andersen,1996-07-31 This book offers a global level comparison between welfare states actual and emerging in Europe East Asia Australia North Latin America The consequences of an ageing population deregulation and heightened inequality are discussed in detail *Pay Equity, Minimum Wage and Equality at Work* Jill Rubery,2003

Welfare States in Transition Gøsta Esping-Andersen,1996-05-21 This wide ranging comparative analysis of contemporary and future changes in welfare states looks at the different trajectories of the welfare states of Europe North America the Antipodes and the emerging scenarios in Latin America East Asia and Central and Eastern Europe Leading experts on each of these regions examine the current structures of social protection consider the causes of the current welfare state crisis and highlight evolving trends for welfare policy Different welfare states are shown to manifest different forms of crisis Among the symptoms of crisis *Welfare States in Transition* suggests that the effect of population ageing is exaggerated and an at least equally fundamental challenge lies in the revolution of the modern family and the changing economic role of women The contributors are sceptical about the neo liberal formula for reform not only because it increases inequality but also because it does not address the growing need for an active social investment policy to ensure against entrapment in poverty or low paid jobs Inventing the Needy Lynne Haney,2002-06-03 In her beautifully written deeply researched and elegantly argued book Lynne Haney shows how much American policy makers can learn from Hungary's social welfare experience By unpacking the very different strategies that Hungary has adopted during the past half century Haney's account illuminates basic policy choices about how a society any society addresses the problems of poverty It makes indispensable reading for those on both sides of the Atlantic who care about the lives of the poor David Kirp author of *Gender Justice* *Inventing the Needy* is a theoretically engaged and methodologically innovative ethnography of Hungarian welfare regimes from 1948 to 1996 Studying the state from below her multi layered and multi sited analysis of the transformations in state policies and institutional practices and their effects on everyday life is an important contribution to comparative studies of welfare states the social construction of the materialization and materialization of need as well as to critical socialist postsocialist and feminist studies Well written lucidly argued thoughtful and thought provoking Gail Kligman author of *The Politics of Duplicity* *Controlling Reproduction in Ceausescu's Romania* *Inventing the Needy* stands at the forefront of a new generation of revisionist scholarship It dispenses with the sharp dichotomies of capitalism and communism and forsakes triumphal interpretations of the transition to the free market and liberal democracy Looking at Hungary through the eyes of women and their experiences with successive welfare regimes Lynne Haney offers a more balanced and variegated picture of the state socialist past and a more sober account of the capitalist present *Inventing the Needy* is a brilliant combination of ethnography history and theory Michael Burawoy co author of *Global Ethnography* *Forces Connections and Imaginations* in a

Postmodern World Lynne Haney's provocative original and altogether brilliant study of welfare restructuring in Hungary in the wake of 1989 challenges us to rethink gender states and social policies in both east and west while providing essential conceptual tools for doing so Ann Shola Orloff coauthor of *States Markets Families Gender Liberalism and Social Policy* in Australia Canada Great Britain and the United States This important book engages the central issue sociology faces after the fall of communism *Inventing the Needy* is a careful empirically well documented and beautifully written analysis of the Hungarian welfare system during and after socialism Haney shows that a critical analysis of capitalism is possible from the perspective of a socialist alternative even today She challenges transitologists who often contrast an idealized capitalist present with a homogeneous and negative view of socialism This book is a must for those interested in theoretical debates about socialism and capitalism and in the welfare state and gender relations under and after socialism Ivan Szelenyi author of *Privatizing the Land Rural Political Economy in Post Communist and Socialist Societies* and co author of *Making Capitalism without Capitalists Class Formation and Elite Struggles in Post Communist Central Europe* *Social and Economic Transformation in East Central Europe* Terry Cox, Bob Mason, 1999 This book focuses not only on economic and political transformation since the demise of communism in Eastern and Central Europe but also on the relationships between economic organization social patterns and institutional change The changes in political structure and policies of economic reform have in turn resulted in changes in social institutions and patterns of social relations The authors look at social relations under the old regimes to understand the current social transformation They consider economic restructuring both in the context of social change and in terms of its consequences for society using case studies from the Czech Republic Hungary and Poland The impact of economic changes on new forms of institutional arrangements social patterns and organization are also discussed taking into account privatization employment social welfare property and industrial relations This new book will be welcomed by economists political scientists and sociologists working in the area of transition

Report of the Director-General International Labour Organisation. European Regional Meeting, 2000 *International Labour Review*, 1995 *International Labour Documentation* International Labour Office. Central Library and Documentation Branch, 2000 *Cuba in Transition* Association for the Study of the Cuban Economy. Meeting, 1996

Journal of Economic Literature, 1996 *Minimum Wages and Youth Unemployment* Youcef Ghellab, 1998 Reviews the main theoretical models and recent empirical evidence on the correlation between the minimum wage and youth employment ***JOURNAL OF ECONOMICS LITERATURE***, 1996 ***Minimum Wages and Pay Equity in Latin America*** Damian Grimshaw, 2003
