Mining Frontier:

Mining Frontiers of the Far West, 1848-1880 Rodman Wilson Paul,2001 Long out of print this study of western mining is now available with three new chapters by Elliott West When originally published in 1963 Professor Paul s book offered the first comprehensive view of western mining as an integral part of the settlement process In his supplemental chapters Professor West presents a social history of mining camps encompassing discussions of gender class race labor and the environment The combined scholarship of Paul and West makes a strong case for the transforming effects of the mining frontier on western society in particular and American society in general This revised expanded edition continues to offer a distinctively vivid voice and an unusually keen eye for telling detail

The Saloon on the Rocky Mountain Mining Frontier Elliott West,1996-09-01 Elliott West s careful analysis of the role and development of the saloon as an institution on the mining frontier provides unique insights into the social and economic history of the American West Drawing on contemporaneous newspapers and many unpublished firsthand accounts West shows that the physical evolution of the saloon from crude tents and shanties into elegant establishments for drinking and gaming reflected the growth and maturity of the surrounding community

A Chinaman's Chance Liping Zhu,1997 Writers and historians have traditionally portrayed Chinese immigrants in the nineteenth century American West as victims For them the American frontier was a place that offered no more than a Chinaman s chance By examining the early history of the Boise Basin Idaho Liping Zhu challenges the stereotypical image of

the Chinese pioneers Looking at various aspects of their experience he takes an entirely new approach to the study of this ethnic minority Between 1863 and 1910 a large number of Chinese immigrants resided in Idaho s Boise Basin searching for gold As in many Rocky Mountain mining camps they comprised a majority of the population Unlike settlers in many other boom and bust western mining towns the Chinese in the Boise Basin managed to stay there for more than half a century Like other pioneers the Chinese immigrants in this unique Rocky Mountain mining region had equal access to the pursuit of happiness Their basic material needs were guaranteed and many individuals were able to accumulate a considerable amount of wealth and climb up the economic ladder The Chinese equality was also seen in frontier justice To settle the disputes they frequently challenged white opponents in the various courts as well as in gun battles Thus the Chinese played all the stereotypical frontier roles victors victims and villains Despite occasional conflicts and personal rivalries race relations between the Chinese and Euroamericans were relatively good cultural accommodation not confrontation was the predominant theme The Idaho Chinese actually received opportunities far beyond what has been assumed British Investments and the American Mining Frontier, 1860-1901 Clark C.
