 information trafficking brinkmanship and parliamentary procedures that obstruct and block progressive politics The book
 reviews and renews modes of thinking about micropolitics that counter notions of the state of exception embedded in
 theories of the political from Thomas Hobbes to Carl Schmitt Emily Apter develops a critical model of politics behind the
 scenes a politics that operates outside the norms of classical political theory She focuses on micropolitics defined as small
 events happening in series that often pass unnoticed yet disturb and interfere with the institutional structures of capitalist
 parliamentary systems even as they secure their reproduction and longevity Apter's experimental glossary is arranged under
 headings that look at the apparently incidental immaterial and increasingly virtual practices of politicking obstruction
 obstinacy psychopolitics managed life serial politics Such terms frame an argument for taking stock of the realization that we
 really do not know what politics is where it begins and ends or how its micro events should be described **Forthcoming**
