Minority Rights In Europe Chatham House Papers Unnumbered:

Minority Rights in Europe Hugh Miall, 1994 Making Minorities History Matthew James Frank, 2017 Making Minorities History examines the various attempts made by European states over the course of the first half of the twentieth century under the umbrella of international law and in the name of international peace and reconciliation to rid the Continent of its ethnographic misfits and problem populations. It is principally a study of the concept of population transfer, the idea that in order to construct stable and homogeneous nation states and a peaceful international order out of them, national minorities could be relocated en masse in an orderly way with minimal economic and political disruption as long as there was sufficient planning, bureaucratic oversight and international support in place. Tracing the rise and fall of the concept from its emergence in the late 1890s through its 1940s zenith and its geopolitical and historiographical afterlife during the Cold War, Making Minorities History explores the historical context and intellectual milieu in which population transfer developed from being initially regarded as a marginal idea propagated by a handful of political fantasists and extreme nationalists into an acceptable and a progressive instrument of state policy as amenable to bourgeois democracies and Nobel Peace Prize winners as it was to authoritarian regimes and fascist dictators. In addition to examining the planning and implementation of population transfers and in particular the diplomatic negotiations surrounding them, Making Minorities History looks at a selection of different proposals for the resettlement of minorities that came from individuals, organizations and states during this era of population transfer. Bibliographic Guide to Business and Economics New York Public Library. Research Libraries, 1976 *European Migration Policies in Flux* Christina Boswell, 2003-11-21 European migration policies are undergoing significant changes. After three decades of highly restrictive approaches, demographic changes and gaps in labour supply are prompting many European governments to liberalize their migration policies. This timely book examines the nature and impact of the changing migration policies in France, Germany and the UK. It analyses the content of new legislation as well as the policy debate and party political treatment of migration issues in each country. It considers the implications of the new policies on other categories of migrants: asylum seekers, refugees and resident ethnic minorities. Minority Rights in Europe Patrick Thornberry, María Amor Martín Estébanez, Council of Europe, 2004-01-01 This publication discusses the main standards and mechanisms created by the Council of Europe and other international organisations to protect the rights of minorities in Europe, including key legal instruments such as the European Convention on Human Rights, the Framework Convention for the Protection of National Minorities and the European Charter for Regional and Minority Languages. It reviews the monitoring activities in various Council of Europe member and non member states both prior to their accession and in their post accession phase. The publication also includes a detailed examination of the case of the Roma Gypsies, a specific minority without a kin state.
